

RADAR

PARIS / MILANO

We are pleased to announce that starting from December RADAR INTERIOR will be exhibiting its products at Le BHV Marais in Paris, on the occasion of the event Buon Natale, un Noël Italien.

In collaboration with the Italian Agency for Foreign Trade, the department stores in Paris' most bohemian district have selected the most interesting Italian brands in the fields of craftsmanship, design, beauty, fashion and gastronomy offering them an occasion to present their products in a warm and joyful atmosphere that winks an eye to the Dolce Vita. It is an authentic celebration of style in the broadest sense of the word: a large festivity rich in experiences to be enjoyed with family and friends.

Against the backdrop of a red wall, **RADAR INTERIOR**, with its double Italian and French soul, is staging some of its most iconic lamps focusing the audience's attention on its extreme skill in creating truly sophisticated objects by working a variety of materials with highly elaborate methods. Thus, the candid plaster ceiling roses of the **Hausmann** line dialogue with the rays of the new **Lafayette** brass lamp and with the glass wall lamps **Zenith, Mirage and Fractale**. The exhibition is dominated by the Christmas hues of gold and white and highlights products in many different sizes.
