Fable is the key in the collection as good fairytales always have happy conclusion

Cozy living launches the SS21-collection with an eye-catching design. As a symbol of a fairytale the design of a Fable Creature will inspire to creating a personal cozy home for you and yours in a new world with a happy ending.

This season the Cozy living collection was inspired from fairytales and is all about personality in creating a cozy home. Although the world around us has changed and things are not quite as they used to be, a calming and embracing home has never been more important.

Fable is the key in the collection as good fairytales always have happy conclusion. This season we introduce the new fabulous Fable Creature Cushion. With its unique and lush embroidered fable tiger motif, discrete piping and sassy black and white tassel detail, this cushion is a statement on its own.

Mixed with a selection of tone in tone cushions, this piece will make them all stand out and add that extra bit of eye-catching glamour to your home. The whole collection made in Cozy Living's favorite colours of the season as the lush elegant Alpaca or the playful Dusty Green as well as the teasing and eye-catching Ultramarine topped with sassy contrast stripes.

"We aim at inspire for a unique home for you and yours. Coziness and lovely dreams with personality for creating a relaxing home to embrace for the long bright summer days with family and friends." Says Tine Timm Hemicke, CEO Cozy living. "We hope you love it as much as we do", Tine ends.
