Can you imagine yourself waking up in a Tropical Forest? Ancient trees, full of other plants sharing the same space so beautifully, birds coming and going making the most calming sounds. Well, these were some of the feelings that motivated me to create the «Toucans Paradise» Mural. Hopefully, you will enjoy some of that energy in your home.

“Brazil made me have a profound love and admiration for its flora. From Banana Leaves to Birdies Paradise, tropical plants are a daily inspiration. The watercolour made, «Verdoiance Mural», is a celebration of nature’s most delicate greens.”
