

**Francesca Colombo's plates&wallcoverings
@Dome Interior, Milan**

After the virtual showcases of Artemest and Archiproducts, Francesca Colombo conquers the physical spaces of Dome, one of the most dynamic Milanese showrooms and a fundamental address for the all design lovers, belonging to the Sag '80 Group, a leader in the design sector for over fifty years.

A happy and successful partnership, almost natural, as both companies share the same values of creativity, quality, experimentation and attention to detail.

Francesca Colombo's eclectic creations contaminate and complete with elegance and femininity the best design brands displayed in the showroom, a talking soul and daily story of an inexhaustible passion for beauty.
