

San Donà di Piave (VE) Italy – 28/01/2021

OBJECT: GMT PARIS – Official Release

“At the moment it seems hard to travel looking for new sunsets, so we decided to represent them in our new models. Let's start with Paris. With that scent of warm bread that we find only there, with this sky that almost timidly fades from yellow to light blue that accompanies us in a night full of lights and colors. Blue and Red Numbers on the Bezel, yes this is France! New #OOOGMTParis – sunset inspired”
