Les Compositions  
Parfumées

# Les Compositions Parfumées

*Scenting your world with emotion*

Inspired by the alchemy of perfumery, jewellery and crystal-making, Les Compositions Parfumées keeps René Lalique's innovative spirit alive, fusing natural and molecular ingredients into chic, fun, modern olfactory stories.

Today, the House of Lalique presents the perfect complement to its exclusive collection with three high-quality candles inspired by three scents from the range. Each candle is offered in a sleek glass bearing the gold Lalique logo, matte white on the outside, with the inside matching the colour of the wax: berry purple for *Electric Purple*, candy pink for *Pink Paradise*, honeyed amber for *Sweet Amber*.

Harmonize your home fragrance with your signature perfume. Burn them bright to reflect different moods or occasions. Les Compositions Parfumées candles will scent your world with color and emotion.

Fluffy. Airy. Heavenly...

*Pink Paradise*, a fresh sea breeze of musks and woods,  
by **Ane Anyo**.

Hot. Delicious. Addictive...

*Sweet Amber*, a whirlwind of delectable petals  
by **Philippe Romano**.

Juicy. Playful. Pop...

*Electric Purple*, a sparkling berry chypre,  
by **Nathalie Lorson**.

# Electric Purple

Brighten your mood by lighting the violet wax of the Electric Purple candle. Against the vibrant green of mint and violet leaves, the mouth-watering boysenberry note, captured through the cutting-edge NaturePrint® technology, is so realistic you can almost taste the purple fruit. Boosted by musk, this high-contrast electric accord rests on a bed of moss and patchouli.

A surprisingly sophisticated, playful fruity chypre that will bring the juicy joys of a summertime berry patch straight into your home, whatever the season.

# Pink Paradise

Let yourself drift on the fluffy cloud of musk with the rosy wax of Pink Paradise, carried by a soft sea breeze scented with sweet, vanilla and almond-scented heliotrope and heady jasmine. Close your eyes: you're transported the pepper-black sand of an exotic island beach, lazing in a sunbeam of juicy citrus on a bed of silky sandalwood. The air is alive with vibrant **Iso E Super**.

A truly miraculous molecule with creamy, woody facets, it makes any scent come alive.

You'll never want to land... Truly heavenly!

# Sweet Amber

Turn your home into a huge, exuberant bouquet of white flowers – jasmine sambac, tuberose, orange blossom – by burning the golden wax of Sweet Amber... And indulge your sweet tooth with luscious vanilla, lifted by a teasing lick of anise. **Galaxolide**, a clean, soft musk that lifts the floral notes, turns them into a whirlwind of delicious petals. As airy as a perfect meringue. And just as irresistible.

Are you in a boudoir, a garden or a chic patisserie? Why choose?
