

« ART NOUVEAU » AND THE POTTERY NORMAND

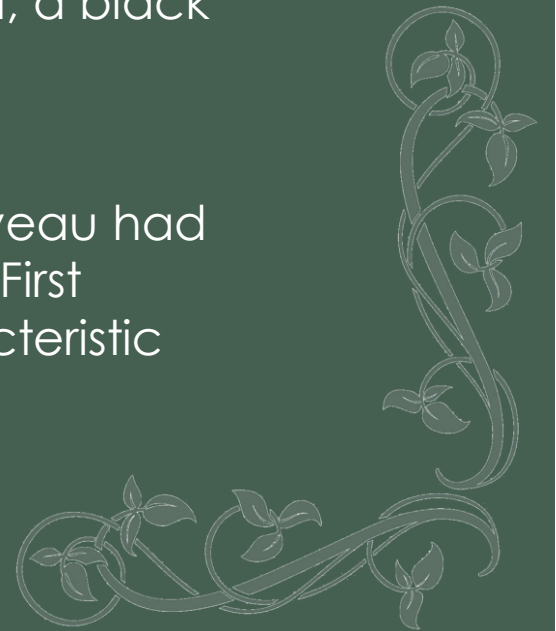

A certain revival in the art of gardens at the heart of the history of the arts.
A black earth, gold and silver...

« ART NOUVEAU »

- Art Nouveau, Modern style or noodle style is an artistic movement of the late nineteenth and early twentieth century that is based on the aesthetics of curved lines. The Manufacture Normand is reissuing its Art Nouveau collection, in sandstone, unfreezing, for a garden, indoor, outdoor collection. An art nouveau spirit, revisited, with effect enamels, as in vogue in this rich era, a black earth, gold, silver...
- Appearing in the early 1890s, we can consider that from 1905, Art Nouveau had already given the best of itself and that its peak is reached. Before the First World War, this movement evolved into a more geometric style, characteristic of the artistic movement that took over: Art Deco (1910-1940).
