Flawless elegance works well for private as well as public interiors, creating an inviting space to unwind. What's more - it effortlessly combines with different seating furniture.

Low Chair NAÏVE

Its main visual characteristic is a large leather strap that holds the backrest attached to the body. Firm connection between wood, leather and textile serves its function and makes it visually distinctive. Like other pieces in this family it features a body that can be easily unscrewed and flat-packed.

SEATING

Pouf APOLLO

Featuring a sumptuous chocolate-brown velour cushion and innovative oak panelled base finished with a protective natural oil. Detailing like the sleek matte black steel legs make this a directional piece of furniture that will enhance any home or office reception room, blending a contemporary look with exquisite craftsmanship.

Chair NAÏVE

This playful chair is stripped to the minimum: a carved solid ash seat and six legs of equal length to screw. The removable foam backrest makes NAÏVE a surprisingly comfortable chair. It takes a minute to assemble it, and another one to flat-pack it back into a small box for transportation or shipping. As an extra feature, the easily interchangeable parts enable the user to play with the chair's color palette, from classical solid wood to a mix of joyful tones.

Bean Bag ROLL BARCELONA

Roll is a donut-shaped bean bag designed for especially soft lounging. Round handmade bean bags are made in two sizes: Roll 85 is smaller and more compact, and Roll 100 is more suitable for spacious homes. The granules inside the bean bag perfectly adapt to the body shape, thus providing a person with more comfort.

SEATING

Bean Bag SOFA MOOG BARCELONA

Sofa Moog is a sofa-shaped bean bag designed for royal relaxation for two. A handmade sofa is the best alternative to conventional sofas, because it goes through any door thanks to polystyrene granules inside it, and most importantly, it adapts to the body shapes of a person. This piece of furniture is suitable for both classical and modern interior; it is commonly used in spacious homes and big offices.

Bean Bag Sofa TUBE BARCELONA

Sofa Tube is an Italian-designed sofa made for two people to rest comfortably. This hand-made furniture is made with a comfortable backrest to lean against. The new inner bag technology ensures an especially comfortable rest that several family members will be able to enjoy simultaneously. This sofa can easily be carried over into another room, so this bean bag will become your favourite oasis of rest. Sofa Tube is a great choice for those looking for an alternative to ordinary sofas and a unique design solution for their home.

Bean Bag TUBE SIDEWAY

Tube is an elliptically tubular bean bag, which is the best alternative to usual chair. The fabric of handmade bean bags is cut diagonally and joined, thus creating a stylish geometric composition. The bean bag Tube can be used both outdoors and indoors, as only specially selected durable fabrics are used for the manufacture of armchair. Tube is a bean bag created in Italy and made in Lithuania that will become a bright accent in every house.

SEATING

Bean Bag RAZZMATAZZ SIDEWAY

Razmatazzis a triangular bean bag for spacious home. The bean bag is equipped with an additional handle inside, so it is convenient to move it to different places in the room. Sideway fabric contains natural materials (cotton, flax), so the textile feels and looks pleasantly natural. It is a breathable material that has the OEKO-TEX® 100 certificate which confirms that this furniture tapestry meets the OEKO-TEX® international environmental standard.

LIGHTING

Lamps Collection MACARON

Macaron lamp combines simple materials with the right proportions, in order to get a lamp with personality. Wood conveys us warmth and strength. Along with the cord which links between the two pieces of wood, giving a touch of originality with its texture and colour. There are wall and floor lamps versions too.

BEDS

Bed SQUARE

An interpretation of the classic headboard divided into squares. Its exceptional character comes from the rhythm among squares of different sizes, and using lines the relief emphasizes the softness of the fabric. As the day passes, the light sliding across the relief highlights its materiality and attractive form. The pulsation among different forms suggests a sense of harmonious playfulness.

Bed LIGNE

A simple solution, an unlimited number of variations. The composition of this bed is changeable; thanks to the modular structure of the headboard, the bed can be flexibly adapted to different interior spaces by changing the colours and arrangement of the modules. Separate modules that can be arranged horizontally or vertically allow you to create different solutions for your particular interior space, from minimalist to architecturally integrated.

Bed ROND

An accent of round forms in the interior. The accent is created by the thickened headboard, which ends in a semi-cylindrical shape. This bed has the lowest headboard compared to the other models in the collection; it is especially comfortable to lean back on in a semi-reclined position. The bed's sleek and streamlined form is especially accented, giving the interior space a sense of coziness.

BEDS

Bed SPACE

Radical minimalism. This model is the most appropriate for an exceptional textile: the form of the bed brings out the features of the ornamentation and texture. Another of the bed's advantages is its size; thanks to its masterful construction and especially thin headboard, SPACE has become one of the most compact beds available. The minimalism of the bed frees up space for the decorator's ideas.

Bed DOTS

Front and center, a composition of four points in the plane of the headboard. The composition is formed by upholstered buttons, the colour of which can be chosen independently of the bed's fabric. The inset buttons not only provide an accent, but also highlight the softness of the bed. A point in a plane is the starting point for various possibilities. Here the button symbolizes the point, which invites you to design and coordinate various accents.

Bed LINES

Solid rhythm. The bed is distinctive for its characteristic inlaid lines in the upper part of the headboard. This forms a subtle relief which is highlighted by the contrast of light and shadow. In this way, the textile is naturally supplemented with ever-changing nuances of light. The tranquil headboard gives the bed a feeling of stability and can be integrated into interior spaces of various styles.
