

## GAME OF SHADOWS

Delicious playful transparency...

We are happy to introduce the very new line of decorative items, with an interplay of light and shadow. Their colors and shapes invite you to a dreamy and poetic journey. They are perfect for those who still have playful mindset.

Hello, we are Alex & Svet Rainous alias ALEX+SVET, Paris based multifaceted artists, designers and makers with Russian origins and a global outlook, active members of prestigious "Ateliers d'Art de France".

Since 2000, we thoughtfully source the finest unconventional ingredients and we meticulously metamorphose them in our Parisian studio into innovative & unusual adornment or objects. Our collections come from sophisticated and playful fusion of avant-garde design, traditional craftsmanship and cutting-edge technologies with an ethically and sustainably approach.

ALTERNATIVE DECORATIVE OBJECTS  
WITH DISTINCTIVE ARTFUL DESIGN AND EXQUISITELY CRAFTED FINISHINGS

This line will take us into an imaginary world that we need.  
Today more than ever, we believe that we need to escape.  
And these objects invite us to this reverie.

The composition has been created using a subtle balance between handmade pieces of acrylic glass, through which a light source pass. Offering a double reading, between the sculptural aspect of the structure and the lights composition results. The latter recalls the very poetic play of light and colors found when the sun hits the stained-glass windows.

Each piece is unique.

Irregularities in the aesthetic finish of each finished product are normal and showcase the careful handmade process.
