

## Wakayama Japan launches a new site to introduce local businesses

Wakayama Japan launched a new website to introduce local companies and products of Wakayama Prefecture. Wakayama is Japan's representative production area for daily products. All products born from this land come from the fusion of high-quality nature and human skills and wisdom in Wakayama. By adding advanced technology and rare processing technology to the tools of life that have permeated our lives as usual, they are never brilliant, but steadily and slowly raise the richness of our daily lives. Four companies that deliver the "next level of richness" that balance the richness of both human life and the global environment, such as high functionality and comfort, not to pollute the environment and waste resources have been gathered here.

TAKADA TAWASHI  
CLEANING ITEMS, BODY CARE

Natural Brush Products have long been established in Japanese life and culture. Natural Brush Products produced by Takada Kozo Shoten uses only carefully selected high-quality pebble with moderate stiffness and firmness of the hair tip, as well as stubborn dirt of tableware and soil dirt of vegetables. As a brush, it washes off dirt gently and reliably without damaging the skin. This rational and sustainable product family inherits the wisdom of its predecessors, starting from the last few years of exhibiting the Maison et Objet, now penetrates into every scene of life around the world.
