

ARREDO CREATIVO

MAYA, THE EXTENSIBLE AND MULTIPURPOSE TABLE

The extendable console tables of the MAYA series can be used in the most varied situations and easily moved where needed. Their versatility makes it unnecessary to have more tables at home as often happens instead. The extension panels they are equipped with can be used individually to compose the table of the desired length, from 4 up to 16 seats, always conveniently stored in the multi-function cabinet on wheels integrated in the table and protected from scratches and dust. The closed record depth of only 38 cm (15") of the MAYA 95XL table makes it suitable for any space in the home, without giving up its 12 comfortable seats at full aperture. The MAYA 110XL with his 110cm width (43,30") and double seat at head of the table allows you to have the maximum space on the table. The combined use of solid wood and 'Made in Germany' steel rails guarantees the product's value and solidity.

INTEGRATED MULTIFUNCTIONAL STORAGE CABINET

Storing the extension panels of a table in the closet is certainly an inconvenience, a problem common to all extendable tables that can be closed as a console. ARREDO CREATIVO is the only company that has brilliantly solved the issue, designing and patenting a functional and elegant cabinet to keep all the table extension panels within easy reach, elegantly integrated inside the closed table. Perfectly protected from shocks and dust, the extension panels can therefore be used quickly to obtain the desired extension of the table. All the cabinets are equipped with special rubber wheels to protect the most delicate floors and can also be used separately from the table, or as independent furnishing accessories (TV stand, hifi, table service unit, etc.). ARREDO CREATIVO has always been synonymous with extensible console tables and smart space-saving furniture. By choosing a MAYA table you will have a product with unique features and 100% Made in Italy.

MAYA extendable tables always integrate the elegant independent multi-function cabinet on wheels that contains all the extension panels

With only one extension panel opened, MAYA can be used as a normal 4-seater table for daily use

Insert two additional legs to give maximum stability to the table
