

Novelties 2020

EN

Sculptures Jeux this year is presenting, among its novelties, *Mosaico* a versatile and multi-use storage unit having in mind the furnishing of cooking area, living room and office.

As an integration to collection *Giralot* comes the Office version (in the two existing widths and heights) but having more depth in order to accomodate "docs" files for the office and with option of an extractable top for laptops.

Collection *Workin* is also being expanded with a mini-fixed and desk version ideal for living, home-office and night areas.
