

GOBOLIGHTS X MIRA

Composition including Törö I, Törö II.

TÖRÖ

The Törö collection was born from the meeting between Mira and Gobolights, both exhibitors at Maison&Objet in 2019 with the Belgium is Design project, which brought together a selection of Belgian talent. Mira's artworks meet the world of design with the brand Gobolights. This fusion of the two worlds has given rise to a collection of lights: the Törö I triptych and the Törö II wall lamp. Produced in small series in Belgium, these pieces with organic colours and shapes, between art and design, bring a unique touch to your interior.

Sublimation printing on aluminium
Brass and mouthblown opaline.
Made in Belgium

MIRA

Mira is the result of a meeting between the talents of painter Yvan Brutsaert and photographer Laurent Van Ausloos. Their joint work is a subtle blend of the two arts. Yvan Brutsaert's work is full of strength, intuition, movement and material. Sometimes cosmic, sometimes mineral, his work lets the viewer travel according to his imagination.

GOBOLIGHTS

Gobolights conveys Nicolas Brevers' vision of design: playful kinetic art that results from research into aesthetics, harmony and balance. The Gobolights design studio in Brussels specialises in the creation and production of upmarket contemporary lighting produced in small series and made to measure.
