The exhibition will be visible during the period from 10 June to 31 July 2021.

Our art and design project perfectly fits into this international exhibition focused on "How will we live together" in the cities we actually live in.

Where do we want to be?

We would like to be in all those places where people meet art.

When art meets hospitality.

For those who love art-design, we create large maps where hotels' halls become real galleries to welcome and amaze guests, as well as small wall maps to embellish your rooms.

"Cities like dreams are built of desires and fears, even if the thread of their discourse is secret, their rules absurd, their perspectives misleading, and everything hides another".
