Made in the Netherlands

OUR STORY

Some 30+ years ago a pioneer stepped on his bike with a few paintings. From one door to the other he sold his paintings. From the profit he bought new ones and sold them again. This he repeated over and over again. During the years the company got bigger and family was added to keep up with the growth.

And now, after all these years, with a new generation to continue the company, there is a 1500m² showroom with canvas, Mirrors, AluArt, AcrylicArt, Walltextiles, Cushions, Art carpets, Framings, Changeable Artframes and more.

We are proud on our logo subtitle “inspired by the world, made in the Netherlands”. We design, develop and produce many of our products ourselves in our own 1500m² workshop in Eindhoven. More and more of our products become circular. Take our Changeable Artframes. 100% recyclable, made for 66% from PET bottles. Printed with bio degradable ink so all in all no hazard for our grandchildren.

Well I can drag on and on about many things but we would like to show you around in our company. The showroom, the production area, the logistic department where we prepare the export orders for all over the planet.

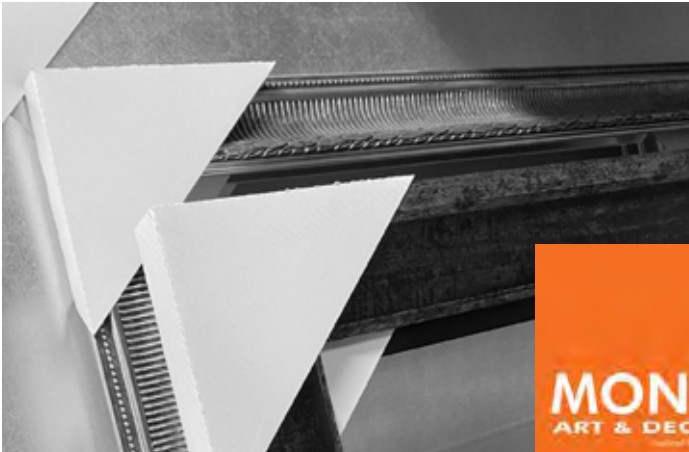

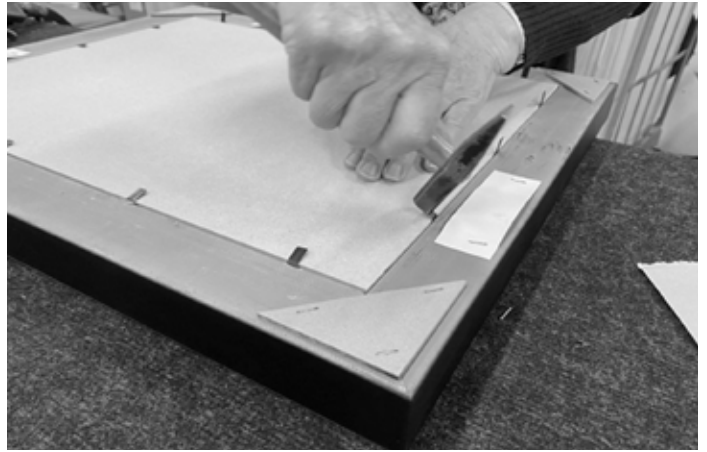

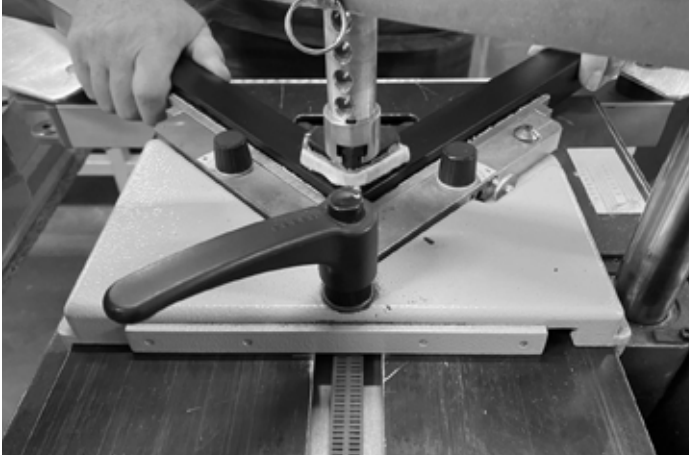

Just one more thing that might be good to know. We do more than wholesale only. Hotel projects, White labels, Private labels, we can help and support you in many ways.

So feel free to contact us for the “Grand tour” .
Oh, by the way, we will start with a coffee.

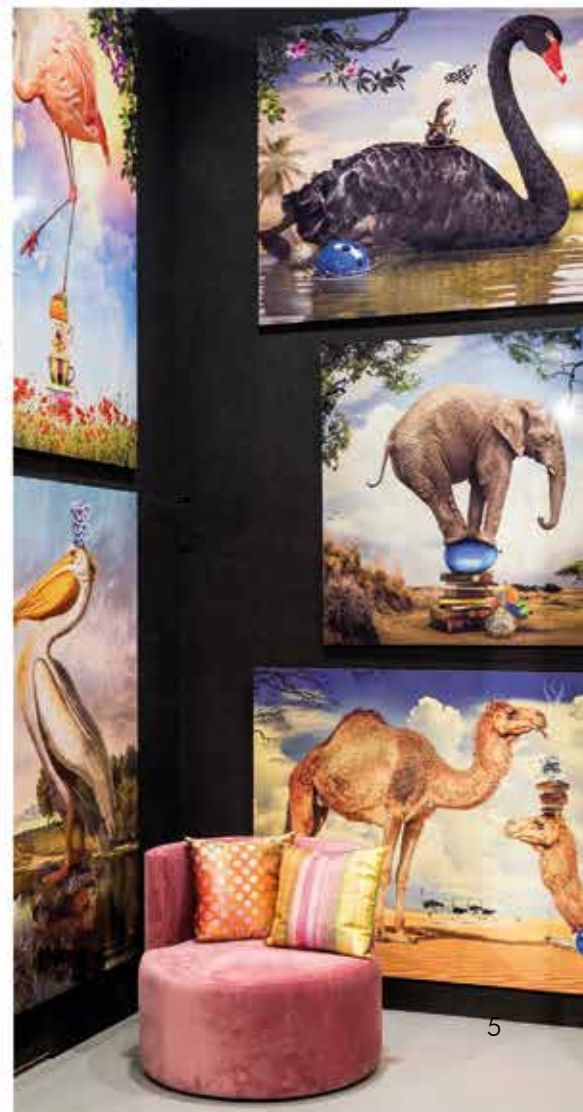

Hope to meet your soon

MON

ALUART

A product that is made in our production facility.

The AluArt team is led by two women.

Why? Because they are so secure that only the best items leave our production. By the way, all guys are jealous because these two girls have the biggest machine in the company. A 14 meter long machine that lacquers all the AluArt panels.

After that the mounting system is installed. After a final quality check it will be packed and shipped.

Some things just won't fit!

An elephant in a bird cage, a giraffe in your livingroom... I think you get the idea.
That is why we pay great attention to images and scale.

Have a look at the images below. A giraffe will fit the original scale but if you ask us to put it on another scale we have to decide together what we will have to cut. Head, toes or both.
Since the giraffe is my favourite animal I want to keep him in one piece.

Okay, I think I got your attention now. Not every image can be scaled to any proportion.
So believe me, when our sales team says: "sorry, that is not possible", it cannot be done.
We will look for a similar image that will fit.

You happy, we happy and our friend the giraffe happy!
