# DESIGNER PROFILE

## NEVER TOO LAKE

Never Too Lake is a Finnish design label inspired by the pure Nordic nature and four magical seasons of the North. Our story is made of lakeside landscapes, sun-kissed meadows and breathtaking winter wonderland. We value pure nature, ethicality and little joys in life.

Finland is the land of a thousand lakes and forests. The jewelry is made from high-quality Finnish Birch that is PEFC & FSC certified sustainably sourced. The hooks and hoops are sterling silver. The other metal parts are made of nickel-free jewelry steel. The jewelry is super light and comfortable to wear.

## ESCVDO

ESCVDO's collections are inspired by Peru's vast cultural and natural wealth, combining ancestral textile traditions with premium fibers.

The Paracas civilization inhabited the central-south end of Peru from 700 B.C to 200 A.D. They're famous for their spectacular, meticulously woven textiles. Most commonly made with vicuña fibres and sometimes adorned with bird feathers, these textiles are considered the finest of the pre-Incan era. ESCVDO is an ethical contemporary fashion brand that works on reclaiming traditional weaving techniques and empowering the memory of Peru's traditions.

## KATHERINE RIARDANT

As a young girl, Katherine developed a fascination with how things are made, teaching herself the nuances of fashion design as she sewed clothes for her dolls. Her curiosity led her to study and obtain her Master's in Fine Arts and Visual Communications, to work alongside renowned designers in Europe, Asia, and the US, to learn the making of leather goods, the art of creating well-proportioned patterns, and the intricacies of working with premium leather.

Katherine Riardant designs draw inspiration from geometric forms, European architecture, aviation, and elegant city living. Each idea is carefully considered for both aesthetic beauty and functionality—fine art takes time.

Paper sketches are enhanced by Parisian-inspired color palettes featuring rich burgundies, deep greens, royal blues, mustards, classic black, crisp white, and select pastels. Detailed design patterns are first brought to life in the form of 3D models, to assess proportions, size, depth, and comfort. Custom-designed accents—such as high-quality plated metals, hidden pockets, and detachable straps—are added for style and function, and complete the undeniably sleek aesthetic.

## JOAILLERIE STUTTGART

Jutta Klink is a jewelry designer from Stuttgart with roots in Pforzheim, the so called „Golden City“. After finishing the „Berufskolleg for Design, Jewelry and Art Object“ at the Goldsmith School in Pforzheim, she did a classic goldsmith training in the company of Günter Krauss in Stuttgart. Followed by a cooperation with „Franziska Rappold Schmuck Freiburg“, it led to an own atelier in Stuttgart where she worked until 2015. In 2016 she opened up her own jewelry store „Joallerie Stuttgart“ in the beautiful west side of Stuttgart, where she creates and shows her work.

## GIA STUDIOS

A portion of Bed of Roses' profits goes to Women's Aid; a charity that supports and empowers women who have suffered and have been affected by domestic violence.

# 9

## PAMELA CARD

Pamela travels the world to collect inspiration for her evolving, namesake jewelry collection. Paris was where her love of ancient jewelry began; however, it was while living in Turkey and travelling throughout Rome and Portugal

that her love of jewelry as an art form came to actualization. Pamela was completely enthralled by the depth of history preserved within each village, encased in each museum, and displayed at each palace.

Using the historic techniques of lost wax casting and hand forging, all pieces are designed and produced locally in Pamela's studio in Vancouver. The collections oppose mass production and instead promote the beauty of ancient craft and focus on it's longevity.

# 10

## EGLE VAN GULIK

E-shaped Home is a Dutch luxury design label, founded in 2017. Inspired by a New Way of thinking about sustainable homestyle. You might tend to shy away from the traditional design out of fear that it's boring, predictable, stuffy—and it totally can be. But some of its facets are truly interesting, and since it incorporates a lot of antiques, the traditional design gives the opportunity to stumble upon some pretty cool pieces. But what exactly makes something "traditional," and just how far back does traditional go? Well, traditionally doesn't always equal staid.

E-shaped home collection only uses sustainable materials, such as organic cotton, tencel and recycled cotton.

# 11

## AGUA BY AGUA BENDITA

Women who besides being head of households bestow our designs with unique handmade embroidery details, which represent our identity and DNA. Agua Bendita is the union of two enterprising women who back in the 2003 decided to join forces with these artisans in order to make their dream of transforming swimwear into unique garments, a reality.
