The brand.

WHO WE ARE ?

Bangle up is a **modern French jewellery brand based in Paris**, with a distinctive and unique signature look: enamel bracelets lined with fine gold and decorated with **pop colors and custom graphic prints**.

Our collections are inspired by our founders' travels around the world desire to pay tribute to women everywhere: our designs always try to link a free spirited, nomadic way of life with **classic Parisian chic**.

Our bracelets can be worn individually to complete your look with a subtle splash of color or accumulated around your wrists for a maxi effect: in any case, they can be **mixed and matched** to create your own personal look.

THE ART OF TRADITIONAL WORKMANSHIP

Each bangle up jewellery is fabricated in coloured enamel and soaked in a **gold bath** by our partners in Asia. We select them with lots of requirements so that they share our savoir-faire, our values and our ethic.

All our jewels follow the same workmanship process during 5 hours before coming back to the Parisian workshop. Coloured or enamel-printed, they are placed in an oven, hardened, plated and varnished in order to maintain their brightness for years.

The whole team, like the bangle lovers, constantly wait for these little marvels – yet **so affordable** – with lots of eagerness!

Bangle up, a «Happy Family»

After working for 15 years for internationally renowned French lingerie brand, Princesse tam tam, Danielle was dreaming of launching her own entrepreneurial and creative project.

Thus, she decided to create Bangle up in 2014 : a creative and instantly recognizable brand with a **strong DNA**. From ultra-feminine and chic jewellery, to bracelets with a sleek design, subtle colours and exclusive prints. A mix of **audacity and elegance**.

Every season, bangle up renews its collections based on diverse inspirations, travels, architecture, design and fashion: bangles of every color and minimalist shapes with a **modern twist**.

Fine gold and enamel, bracelets, cuffs and bangles adorn our clients' wrists for a maxi "bangle effect". Our brand is present in **over 40 countries across 450 points of sale**, of which notably department stores Le Bon Marché, le Printemps, les Galeries Lafayette, Le BHV and the concept store l'Exception in France; Le Bon Genie in Switzerland; The Louvre Abu Dhabi in United Arab Emirates.

In a nutshell, we like to think of bangle up as more than a brand, but as a "happy family business" as Danielle likes to put it.

Located in the heart of Paris, in a typically Parisian cobbled alley a stone's throw from the Canal Saint Martin, bangle up's "atelier" is a breath of fresh air in the urban jungle, just like our jewels are **little lucky charms**.
