Know-how and craftsmanship …

Our story….
1960: Located in Hambach in the heart of the forest region of eastern France, Chêne de l'Est was founded in 1960 by Joseph Bach. A local carpenter, Joseph started working from a small workshop originally built by his grandfather, and from these humble beginnings Chêne de l'Est has grown to be one of the premier hardwood flooring companies in France.

Today: Chene de l'est started as a family company and remains family owned and operated today.
Joseph Bach's four children, Raymond, Gabriel, Jean-Michel and Brigitte Eva form the management team with many other Bach family members also involved in different aspects of the operation. All share Joseph's passion for beautiful, high quality handcrafted French Oak floors.

As specialists in solid and engineered French oak hardwood flooring, Chêne de l'Est crafts beautiful flooring that brings light, warmth and distinction to any style interior.

Chêne de l'Est is proud to offer an extensive range of both solid and engineered hardwood floors with a style and finish to enhance every décor. Our expertise and superior craftsmanship allow us to produce hardwood floors with unique textures and colors, all available with either oil or urethane finish. There are now many different styles to choose from within our collections that included Smoked, Antique, Loft, Island, Sawn-Face, Structured and Metallic.
Chêne de l'Est provides one of the most complete ranges of French oak solid and engineered hardwood flooring
Chêne de l'est also offers patterns in Chevron, Herringbone, Versailles thus placing the oak in its noblest form at your feet.
The quality of our products has won over architects and decorators in France and abroad. We have beautiful references in luxury hotels.

We provide advice and maintenance products to guarantee the durability of your parquet floor.

Chêne de l'est guarantees you an eco-responsible approach, our wood comes from the surrounding forests and is PEFC certified, from sustainably managed forests.

Our floors are produced according to French standards and meet the required performance.
Labelled A+ for all our finished floors, Real Wood, and CE standard.

We present you **our colours and today's trends.**

INDUSTRIAL Collection

a new INDUSTRIAL Collection makes its entrance. In this category we offer two versions in solid oak:

- **ORIGINE SCI**É :

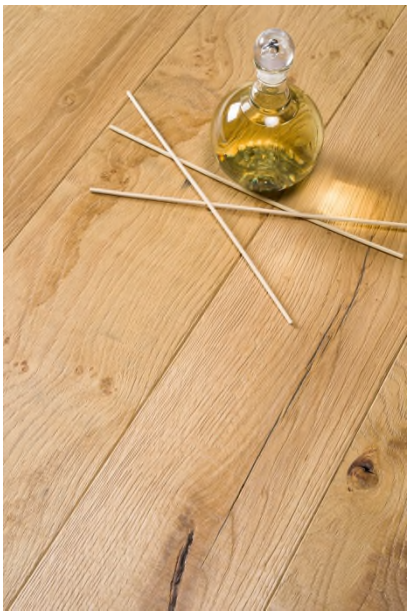

Rough-hewn, sawed oak with its original appearance, as it appears when it is stored in the sawmill prior to processing, and subjected to the climatic conditions which give it that unique appearance with its characteristic stains and marks.
Tongue-and-groove assembly, with light height difference to accentuate the industrial side.

Finishing :

OS 1 - Origine scié - Raw wood aspect oiled
OS 2 - Origine scié - Natural oiled
OS 3 - Origine scié - Chaume oiled

OS 1
Origine scié - Aspect bois brut huilé

OS 2
Origine scié - Naturel huilé

OS 3
Origine scié - Chaume huilé

- **USINE 4** : as close as possible to raw wood look with all the singularities of wood that reveal its factory aspect, cleaned and structured. Tongue and groove assembly

Finishing :

U4-1 - Usine 4 - Raw wood aspect oiled
U4-2 - Usine 4 - Natural oiled
U4-3 - Usine 4 - Chaume oiled
U4-4 - Usine 4 - Millésime oiled

U4-3
Usine 4 - Chaume huilé
