

MODERN ART DECO EXPERIENCE

CREATED BY MARBÉ DESIGNS INC.[®]

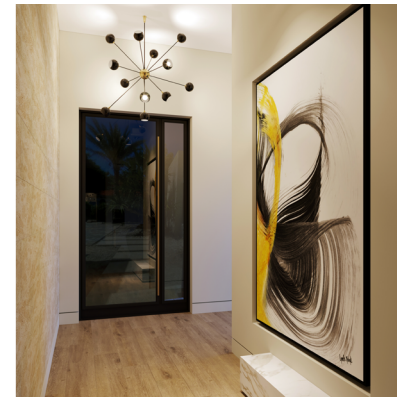

MODERN ART DECO EXPERIENCE CREATED BY MARBÉ DESIGNS

Marbé Designs Studio strives with passion and devotion to transform any space into something unique, creating a comfortable environment while experiencing the beauty of art.

A grand, luxurious home is one of the many homes she has designed, from LA, New York, and Florida.

With a curated selection of DelightFULL and Essential Home's products, Marbé Designs created modern art deco spaces that will inspire you and show you how to incorporate furniture as if they were high-end pieces of art.

ABOUT MARBÉ DESIGNS STUDIO

In Marbé Designs Studio, we strive with passion and devotion to transform any space into something unique, creating an environment where our clients can feel comfortable experiencing the beauty of art.

Marbé Designs, Inc. is an Award-Winning, full-service Architectural Interior Design Studio based in Los Angeles, California, specializing in High-End Residential as well as Hospitality sectors across the country and overseas; with an eccentric knowledge of creating both refined and authentic designs.

“ I see design as an art, and art heals souls.
- MARBÉ

HALLWAY

Stepping away from the most popular areas in any residential project, Marbé's unique residential approach of this "Modern Art Experience" is all about those spaces that showcase the essence of the unique art deco style. Everything starts in the hallway, a home area that many interior design enthusiasts don't pay attention to.

For this luxurious experience, Marbé highlighted the beautiful artwork by Lynette with an explosion of light provided by DelightFULL's iconic suspension piece called Blakey.

ART WORK BY LYNETTE

“

For this project, in particular, I'll say the focal point is the metals, the natural stones, and our effort to trying to stay away from designing that typical house in front of the water

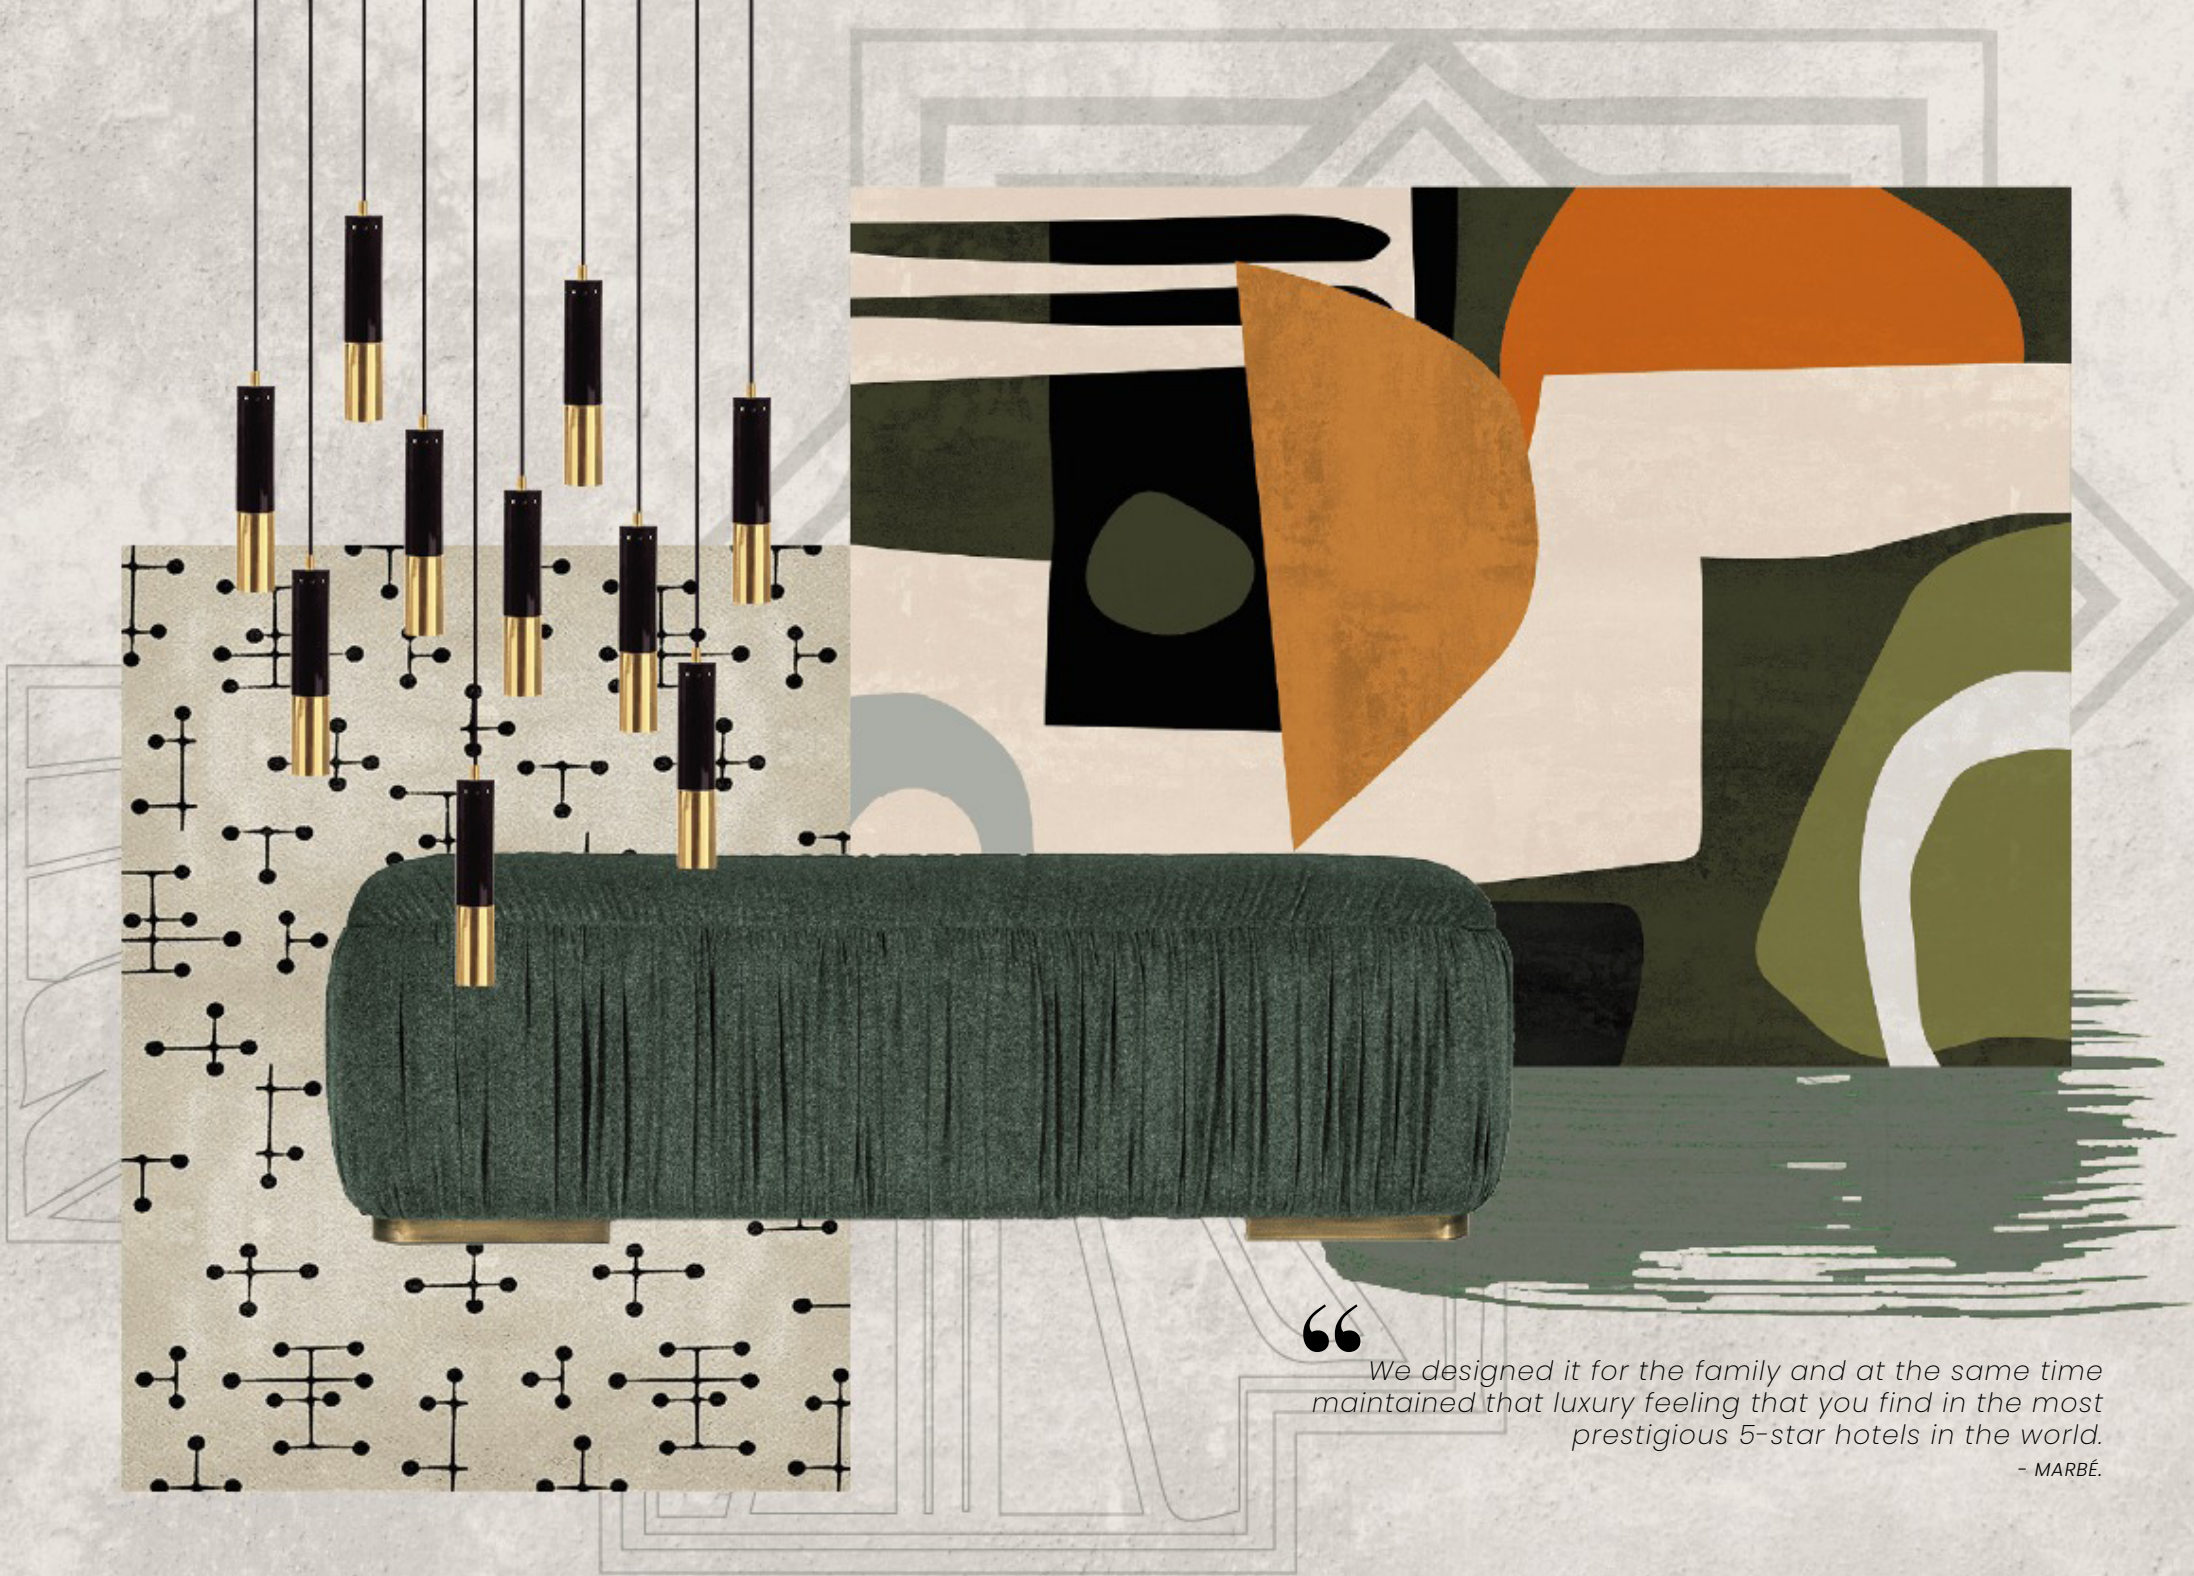

- MARBÉ.

MEDIA ROOM

Last but not least, we have the final yet more exciting space in the entire "Art Deco experience" designed by Marbé Designs: the bespoke media room. The design is divided into two main areas: one small bar area and a luxurious living space which makes this the perfect entertaining space. Essential Home's unique product set composed of the Mansfield armchairs, Miller center table and Vinicius side table is a statement that shows the high-end side of the popular mid-century modern style.

“

We designed it for the family and at the same time maintained that luxury feeling that you find in the most prestigious 5-star hotels in the world.

- MARBÉ.

PIANO ROOM

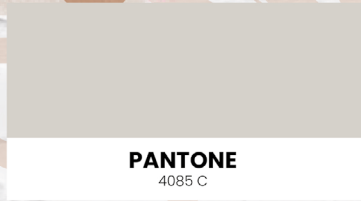

A piano room is an essential space in a home decor design for every design enthusiast that is in love with the art deco style and its unique details.

Featuring a luxurious mid-century twist due to the fabulous statement lighting feature created with DelightFULL's Ike Pendant lamp, this unique room is all about simple lines and a sophisticated color palette that pops up the classic yet timeless piano.

“

Feel my adrenaline rise from the first meeting, the anticipation of seeing the site, and listening to my client's expectations which is part of getting inspired to start creating.

LIVING ROOM

Next up, there is the sophisticated living room design, where the luxurious marble wall takes the place as the main character of the entire space.

To complement this beautiful feature, Marbé complement the space with some beautiful furniture design from multiple luxury brands such as Essential Home, Caffè Latte, Boca do Lobo, and Brabbu.

Although all of these unique products are made with a high standard of quality excellency, it is Essential Home's Jacobsen side table, made entirely of two different marble types, that brings the space together into a cohesive and sophisticated look.
