Iceland Collection

Iceland Collection is launched after QT's voyage in 2015. In late autumn, weather changed quickly in Iceland, a sunny morning can easily turn into a snowstorm later that day.

Iceland Collection marks the start of minimalist with an entirely new artistry of porcelain. The design is inspired by the colours and landscape of nature, with the heritage of traditional craftsmanship. It's the ultimate expression of purity and simplicity for contemporary home décor.

'Making the invisible visible'. Iceland collection vases are all hand-made with distinctive signature line, color and form.

Sérénité / Holiday Collection

Sérénité Holiday Collection is inspired by the French artist Henri Martin painting <Sérénité> created in 1899. It shows the happy souls that fate has led towards felicity being guided by angel musicians to Arcadia, the land of calm, serene happiness.

The Sérénité Holiday Collection is the extension of the natural color variance from Iceland Collection with the new addition of the delightful rose pink color.

Heart shape porcelain vase is the new creation for this collection, a symbolic for love and peace.
