MAISON GALA

Fine dine

With that extra Italian touch

**From your living room
to the best places...**

Maison Gala now appeals to lovers of the art of the table, such as restaurants and hotels, through its three ranges: crockery, table linen, and decoration.

In search of the best Italian know-how...

Carmen seeks out all of her artisans herself. Maison Gala is above all a human adventure. The adventure of men and women who turn their know-how into "savoir vivre". Craftspeople who share their history and traditions.

**Once upon a time in Italy, there was
Nonna Carmela and Nonna Peppina...**

It was from her Sicilian grandmothers that Carmen learned the delicate art of embroidered linen tablecloths, handcrafted glassware and plates, the great Italian culinary traditions. Today, the little girl has grown up and is bringing this family heritage to life through her supportive, responsible and authentic brand in the tableware sector.

**Responsible
tableware...**

The raw materials used at Maison Gala come from Europe and are completely natural, ecological and respectful of the environment.
