MEET SANDY BEIGE - A NEW FALL-WINTER '21 COLOR FOR YOUR HOME

Summer goodbyes are never easy - that's why this year we have decided to keep the summer for a little longer. This fall, we introduce a new addition to our color palette, a color inspired by the best moments of our summer, Sandy Beige.

This earthy and warm color is inspired by the soft sand and golden beaches, beautiful late-August sunsets, and great memories that come along. Sandy beige will be a subtle, classy, and distinctive addition to an extensive MagicLinen's color palette consisting of 18 colors, and will complement the best-selling Natural linen color by giving it a brighter shade. This new color fits just as well in any modern or traditional interior, and widens our earthy tones selection for those who are looking for that perfect match.

Get ready for the cozy fall season - and keep the warmest summer memories at home!

Available from 14th September, 2021
