

***New Darian Bathroom Collection
A Daring and Imposing Bathroom Solution***

A new family has just arrived! The Darian Collection is the latest family of products by Maison Valentina, featuring a bathroom, a freestanding, a towel rack and two mirrors. The set draws inspiration from Darius, the great Persian king, who ruled the empire at its peak in 5th century BC, having control over regions that nowadays belong to three continents. Just like most family products, the goal of the Darian Collection is to offer a wide range of bathroom solutions that will suit all your needs, whether they are functional, merely decorative, or both.

DARIAN Bathtub

DARIAN Bathtub was conceived with precise knowledge of production techniques and materials, each with different specialties, from metal-work to upholstery. It features a cluster of gold plated brass asymmetrical bars enveloping a black leather structure, that results in a blend of artful and stout personality.
