

ORIGINALHOME PRESENTS:

XMAS TREE CANDLES FOR AN ECO-FRIENDLY CHRISTMAS

Today, it is more important than ever to be a conscious consumer around holiday season but still give unique gifts. The Xmas tree candles try to fit into this niche of gift giving: a small, minimalistic candle that comes in two sizes and is made from certified palm wax.

With Christmas being just a few months from now, it is almost time again to think of Christmas gifts. Especially for the environmentally conscious consumer, this can be difficult, as gift giving should not put planet nor people at stake.

The Xmas tree candles from originalhome are handmade by craftspeople in East-Java Indonesia and hand poured solely with wax made from palm kernel oil. The minimalistic style of the medium and large sized candles pleases the eye and fits into any interior. In contrast to the bright colours we are often exposed to during Christmas, the Xmas tree candles come in nine on-trend colours inspired by nature including cognac, forest and beige. The Xmas tree candles are the perfect small Christmas gift for anyone you want to share some light and warmth with that special someone!

Why originalhome uses certified palm kernel oil for their candles

The palm kernel oil – not to be confused with palm oil - originalhome uses for all of their candles is RSPO-certified and vegan approved. Technically, palm kernel oil is a waste product of certified palm oil plantations as it is derived from the same fruit as palm oil. Palm oil is derived from the pulp of the fruit while palm kernel oil from its pit. The stearin from palm kernel oil is plant-based, burns evenly and can be safely processed by the candle makers. RSPO-certified palm kernel oil is in line with originalhome's proposition and therefore with a conscious consumption and sustainable production.

Make impact with originalhome's social gifts

Originalhome introduces the perfect eco- and people-friendly alternative to usual gifts: social gifts! The social gifts are specially selected gift items that support a sustainable and social cause at the same time. Because of their unique background story they are the perfect gift for that very special someone. Surprise with unique handmade cutting boards, aprons and multipurpose cloths from recycled textile, candles from certified palm kernel oil or glassware from upcycled wine bottles. The gifts are packed in recycled paper packaging with the option of a personalized message. The purchase of a social gift supports people in remote areas of developing countries that would otherwise suffer from poverty and unemployment.
