

innerLine, Affreschi & Affreschi new collection

Drawn by the Spanish artist María Dalli, available from September 6th

Affreschi & Affreschi will launch the new collection innerLine hand drawn by the Valencia-based artist María Dalli next September the 6th during Milano Design Week 2021. Most of Dalli's designs for Affreschi & Affreschi are based on drawings that have been made with one line, that is, without lifting the pen from the paper. In this way, the artist seeks to transmit a sense of unity, fluidity and minimalism. In fact, these visuals represent human interaction in a variety of forms based on balance and fluid communication. Affreschi & Affreschi handmade wallcoverings are made to measure and can be customized in patterns and colors, for a sartorial effect. The products are certified for fire reaction, thermal resistance, acoustics, Green Guard Gold certified inks and can also be installed in showers and in damp areas.

InnerLine will be available on www.infoaffreschi.com from September 6th.
