REINTRODUCING LIFE & MOVEMENT

This collection is inspired by the **Mobula rays** and the way they swim by flapping their **large triangular fins**. This species, found in the Mediterranean, is well known for its impressive leaps out of the water. It is this **dynamism** and **liveliness** that we have tried to convey in this eponymous collection.

It plays with the **effects of perspective** depending on the angle of view and provides a **striking and graphic visual** whether from the front or the side.

The faces of the mirrored wings are sometimes illuminated by a **low light**, sometimes by a **backlight**, creating an **effect of contrast and depth**. The light and shadow work on the wings of this suspension brings a **dynamic movement**, creating a **poetic and organic dimension** beyond the desired lighting alone.

MODULARITY & ADAPTABILITY

The **organic design** of these suspensions makes them **timeless** and adaptable to any environment (office, residential & hotel).

Several compositions are possible:

- **assembled in line** (in series) with several modules to adapt to the configuration of a workspace and the number of offices to be lit.
- **staged with a multitude** of independent suspensions of different sizes like a school of flying rays.

STANDARD FINISHES & A CUSTOMISATION SERVICE

DESIGNHEURE offers these suspensions in several versions:

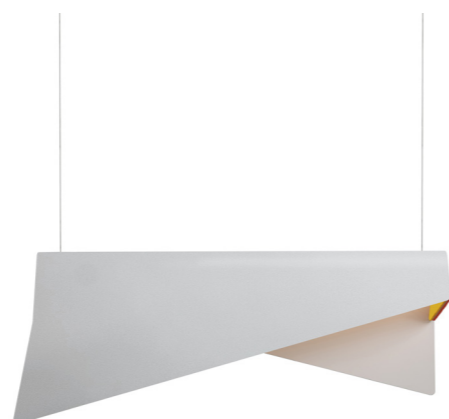

- **White lacquered steel** finish inside and out, with coloured felt on the sides.
- Or with the **exterior in coloured metallic fabric** (gold, silver, copper), also with coloured side felts.

Our **customised offer** allows for the personalisation of the outer fabric covering as well as the side felt finishes.

INVITATION TO TRAVEL

A touch of **French elegance associated with the Orient** inspired its name: Paris - Hanoï.

The Vietnamese conical hat, a new trending fashion accessory:

While for years the *nón lá* was worn almost exclusively by peasants and city dwellers from the countryside, there has been a resurgence of interest in this iconic hat in Vietnam. A return to the forefront of the clothing scene accompanied by the revival of the *áo dài*, the traditional dress of Vietnamese women. Wearing their conical hats and draped in their *áo dài*, Vietnamese women exude an irresistible grace, elegance and softness.

CHIC & NATURAL

The Paris-Hanoï collection offers a **new interpretation of this fashion accessory, it dresses up spaces** by bringing a **refinement and an additional graphic design** that gives it a **timelessness beyond the summer**.

The textile, part of our DNA which always brings this complement of well-being and **personalisation** to our collections, was chosen to enhance this **fine raffia** suspension with finesse. A black lacquered finishing cone completes the line and matches the black borders, for a **Couture and Graphic effect**. Its generous dimensions allow a beautiful lighting of the space.

STANDARD FINISHES & A CUSTOMISATION SERVICE

DESIGNHEURE offers this suspension in several versions:

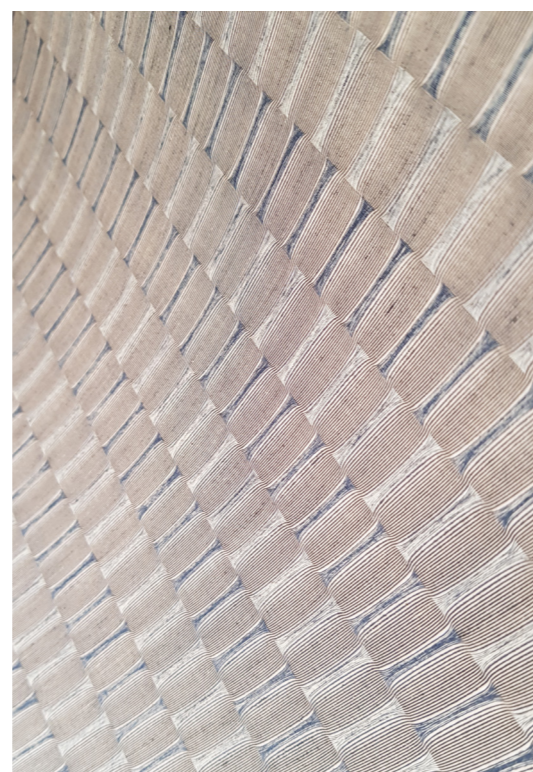

- A **natural raffia** finish with a simple exterior.
- A natural raffia with an **orange cotton interior**.
- A natural raffia, inside **patterned fabrics**, with reflections and **textural effects** that echo the relief and **mesh** of the raffia.

Our **tailor-made** offer allows a customisation of the interior fabric covering or to remain in simple raffia.

PARIS - HANOÏ

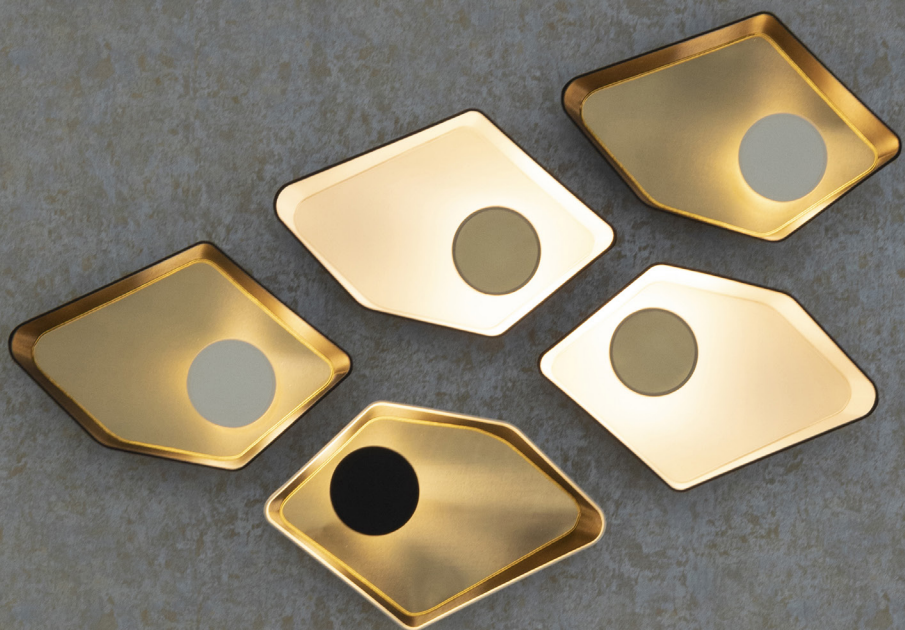

Lampshade: Ø71 x H.42 cm
Price: from 478,80€ incl VAT

Interior finish in patterned fabrics

WALL LAMP & CEILING LAMP
BABY NÉNUPHAR

ÉDITION — FRANCE

BABY VERSION

Nénuphar (Large and Small), Nénuphar is now also available in a Baby size in **wall and ceiling lamp** versions. **Ideal for residential projects** or smaller spaces. Used on either side of a bed **headboard**, it will provide indirect light suitable for bedrooms.

A real light scenography, Nénuphar **dresses walls or ceilings in a fascinating way**, playing at the same time the role of a sculpture, an acoustic wall and light feature. Its choice of customised colours, its **modularity and 360° rotation**, leave a great deal of creativity for the user.

It is equipped with an LED light source that diffuses the light in backlighting. It is a solution to the double problem of large wall spaces in hotel lobbies and/or very low ceilings overlooking large spaces that require an architectural decorative response.

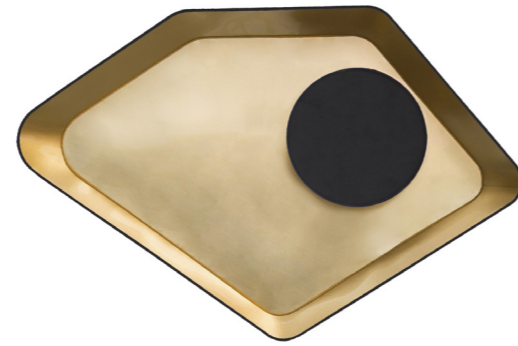

The Nénuphar collection is available in wall, ceiling and adjustable suspension lamps, in single or trio versions, to freely compose your scenography with one, two, three or infinite models.

STANDARD FINISHES & A CUSTOMISATION SERVICE

DESIGNHEURE offers the products of the Nénuphar collection in several versions:

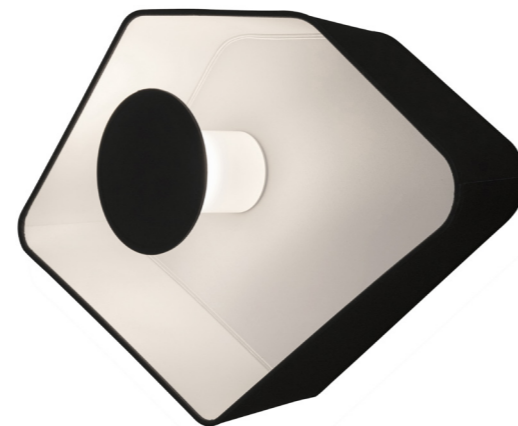

- A selection of **4 standard finishes**.
- **3 lampshade sizes available** that can be oriented in different positions.

Our **tailor-made offer** allows for customisation of the interior and exterior lampshade lining.

ÉDITION — FRANCE

NEW DECLINATION MOZAIK COLLECTION

This **new version** is composed of **4 modules** arranged in a square, **like a prism**. This contemporary chandelier with a remarkable design provides a subdued light, backlighting the interior colour of the lampshade.

Mozaik is both an **architectural and modular collection** that fits into the space: both a light fixture and a divider **panel** depending on the version chosen.

Created by the designer Davide Oppizzi, the design was based on **geometric** shapes inspired by the concept of mosaics. The aim was also to create a luminous surface, falling like a **meteor shower**, rather than just providing a point of light. **In keeping with the DNA of Designheure**, this collection takes up the infinite possibilities of finishes offered by fabric and textile thread, to be arranged in a graphic & customisable play of light, which sculpts the space.

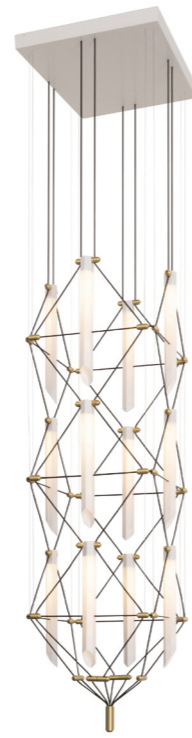

Available in **many sizes, models and colours**. This product is modular, custom sizes are available upon request.

STANDARD FINISHES & A CUSTOMISATION SERVICE

DESIGNHEURE offers this chandelier in **several versions**:

- Finishes in white or yellow, light green, duck blue, blue grey or navy blue.
- The **textile cords** in black or khaki green.
- The lengths of the textile cords and steel cables **depends on your ceiling height**, the desired passage height and the use within your space.

Our **customised offer** allows the colour of the lampshades and the textile cords to be personalised.

CHANDELIER 4x3 MOZAIK

Lampshade: L. 4 x l. 1.5 x H. 45 cm

WALL LAMP PETITE NONNE

Lampshade: L. 38 x l. 23 x H. 23 cm
Price: from 334,80€ incl VAT

BETWEEN ART AND FUNCTION

The sculptor and designer **Raoul Raba**, who won the Grand Prix de Rome in 1955, has created this most beautiful piece. Made from a sheet metal disc, the Nonne offers an **indisputable movement**. The base and the lampshade, made from the same piece, merge and complement each other in a **remarkable fluidity**.

For this **signature collection**, a new Petite Nonne version has been created. Now **available in two sizes**, the original lamp is available in a smaller version, as a **lamp and as a wall lamp**, with a **new finish also in black**.

The **45° degree** articulation of the wall lamp allows the orientation of the light flow.

Produced in France, «Les structures-luminaires» takes us back to the roots of contemporary design - Design 1972.

STANDARD FINISHES & A CUSTOMISATION SERVICE

DESIGNHEURE offers this lamp and wall lamp in several versions:

- A **white** or **black** finish.
- The **textile cord** in **black** or **white**.
- There are **2 sizes of lamp**.

LAMP PETITE NONNE
