## Making the "Curly-effect" in PURE bed linen

The bed linen is first stitched completely and then washed to bring out the curly (washed) effect. The slim edging on all sides adds beautifully to this effect.

## Choosing Satin or Percale

Satin is woven from mercerized and extra fine yarn, which gives a soft, smooth, very durable surface. Percale is a particularly dense weave of finer yarns, which gives a breathable, heat-regulating and soft surface.

Gorm Wisweh is the name of the pizza chef in the owner circle at Gorm's and the essence of the image of the restaurants. Gorm is a loving and playful guy, who loves food and good ingredients. A crazy guy, an original, and a damn good chef.

Gorm is responsible for the food development, the menu, the quality, the training and opening of new restaurants. All food ingredients at Gorm's are carefully selected! Italy is a dedicated choice supplemented with a few good Danish food ingredients, enabling Gorm's to deliver an original pizza experience.

#### THE COOPERATION WITH BAHNE HAS ALSO BEEN CAREFULLY SELECTED!

The products have been long in the making, or more precisely – under development. The offer to put his name on already existing products from other collaborators has been turned down for years, but Bahne suggested to create something from the experiences and the ideas that have been built up through almost 15 years of pizza love. In addition, the intention to develop and test the products from scratch to obtain the right use and feeling of each single product was an inspiration.

It is the only way we work with our products at Gorm's – both when it comes to food and the best possible equipment for the pizza master at home.

## Care for your Gorm's items

Soaking will damage the wood and make it split. Instead rinse boards and other wooden items under hot water. Wash on both sides, air dry or wipe them off.

Cutting boards must be oiled with mineral oil regularly to avoid discoloration and to prevent food odors and bacteria.
