

Sustainability

Since 2021 we started planting trees. We love nature that is why we spare 1 dollar for every product sold.

Our plan is to make long term partnership with one tree planted.

One dollar. One tree. One planet.

One Tree Planted, a non-profit organization focused on Global Reforestation: „We want to make it simple for anyone to help the environment by planting trees. Together we can restore forests, create habitat for biodiversity, and make a positive social impact around the world.“

Since 2014, they have more than doubled the number of trees planted each year, and are working with partners across 43+ countries in North America, Latin America, Africa, Asia, Europe and the Pacific.
