Unique Wall Creation

EASY TO INSTALL MONUMENTAL CANVASES

Fabienne Fabre realizes monumental murals on painted canvas adapted to your dimensions that are easy to install and totally dust-free.

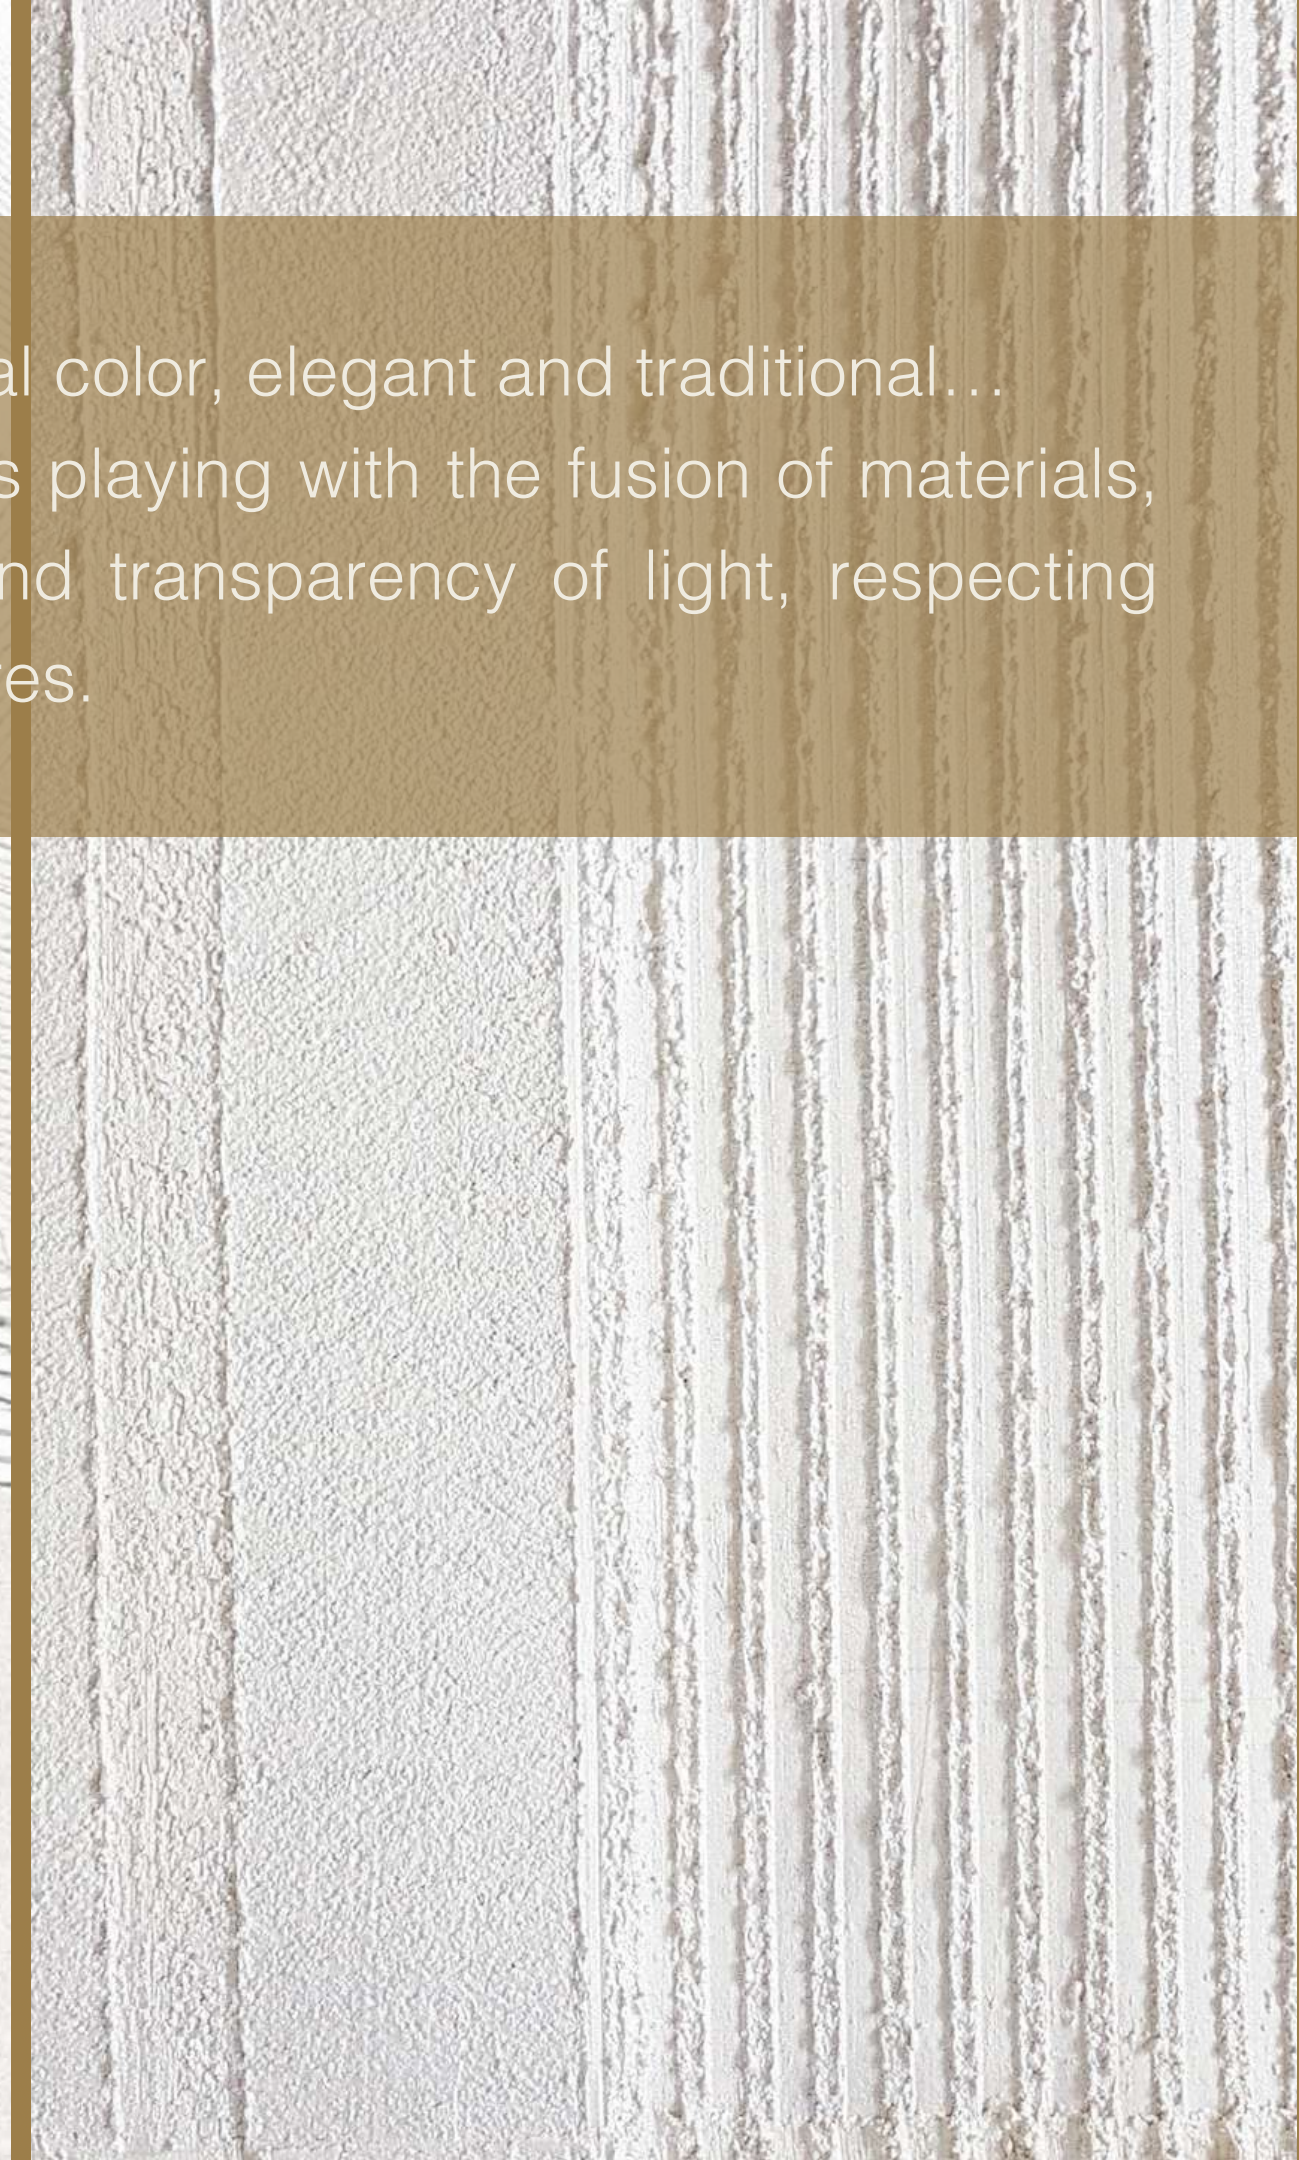

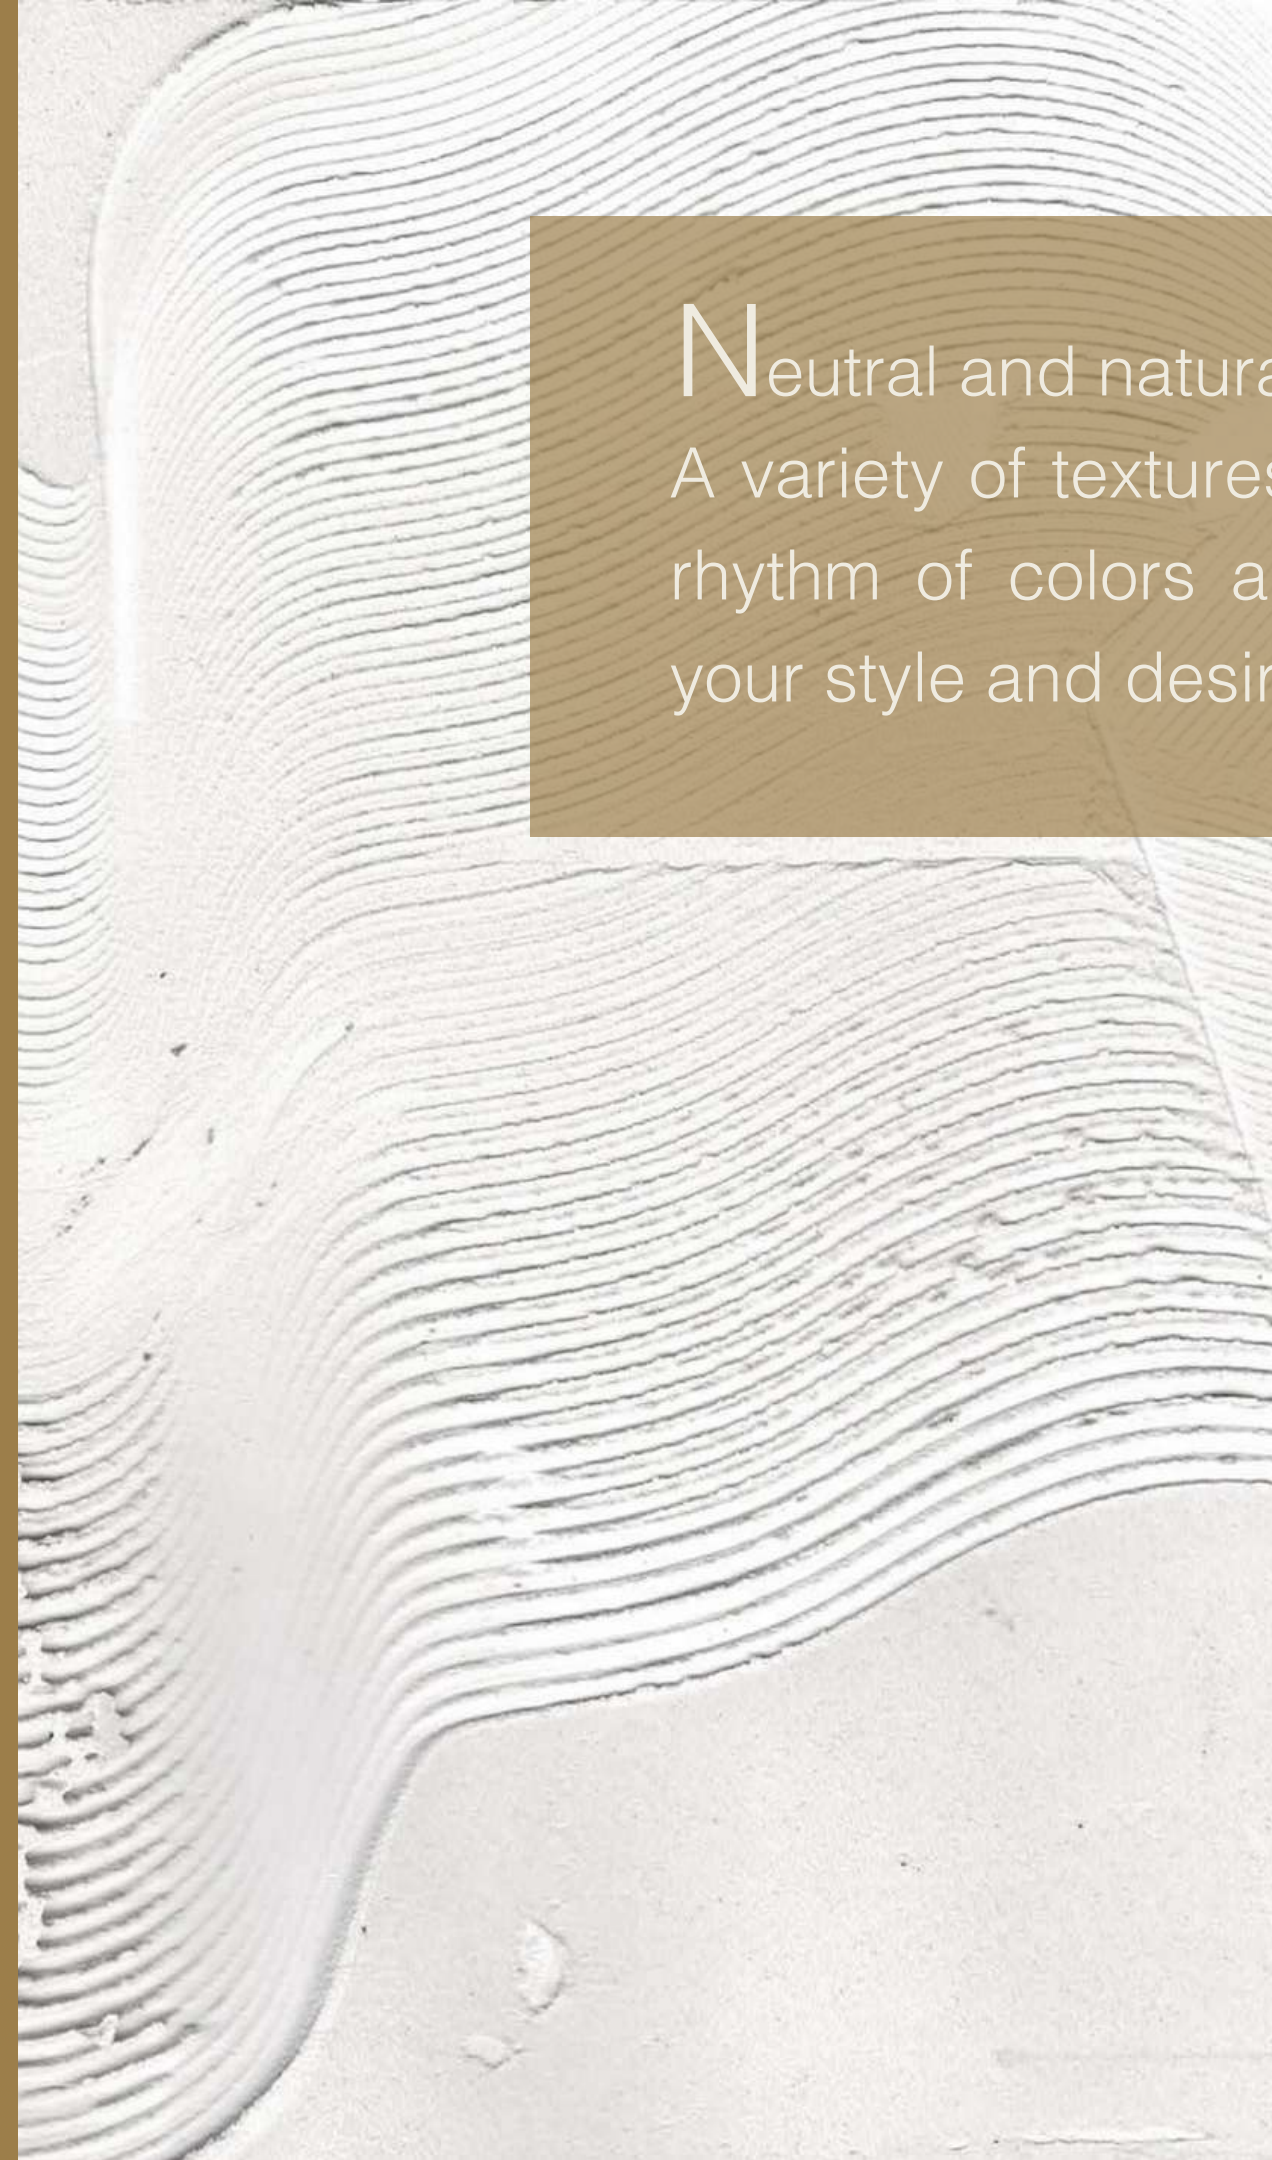

UNIQUE CONCEPT SUITABLE
FOR ALL TYPES OF PROJECTS

LOUIS VUITTON 2020

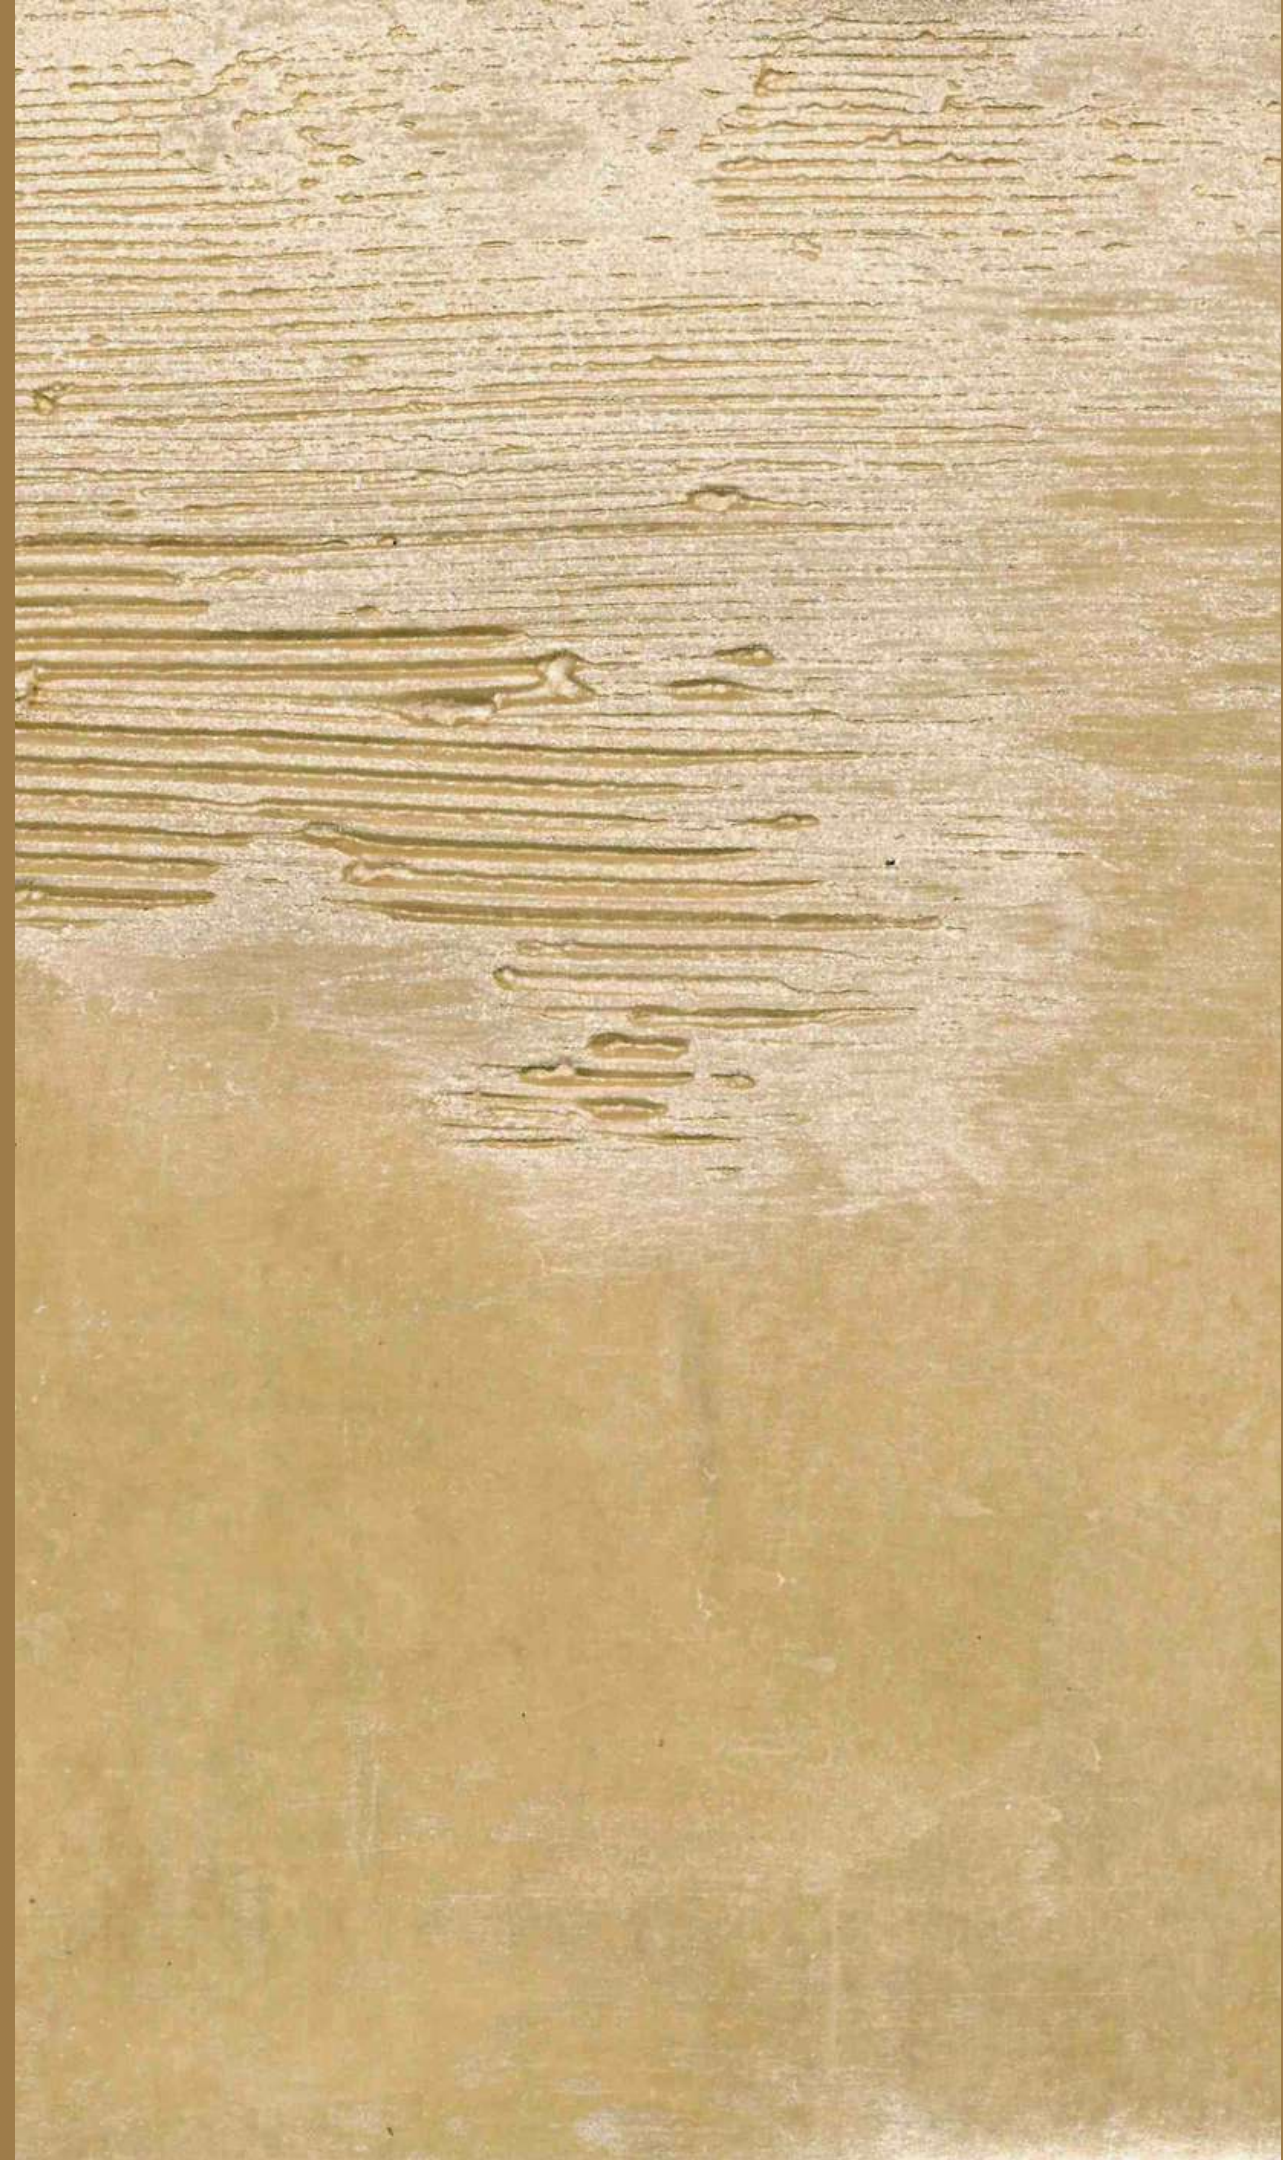

Neutral and natural color, elegant and traditional...
A variety of textures playing with the fusion of materials,
rhythm of colors and transparency of light, respecting
your style and desires.

The image shows a workshop interior. On the left, a wooden wall with vertical planks is visible. A yellow lampshade is partially seen at the top left. In the foreground, a dark wooden table is partially visible. On the right, a large canvas painting is displayed, featuring a textured, abstract composition in shades of blue, grey, and white. A semi-transparent dark brown box is overlaid on the right side of the image, containing white text.

All products are made in our workshop in France. Thanks to our unique know-how, we can pack and ship each canvas (up to 9 meters X 3,80 m in one piece), in perfect condition and ready to install in your site.

A modern bathroom interior featuring a white rectangular sink with gold-colored faucets. The wall behind the sink is composed of large, light-colored, horizontally-oriented textured tiles. To the left of the sink, there is a vertical mesh panel filled with white, rounded stones. The floor is made of light-colored wood. A small white scale is visible on the floor to the left of the sink. The text "EVERY PIECE IS PERSONALIZED" is overlaid on the right side of the image.

EVERY PIECE IS PERSONALIZED

PRODUCT ADVANTAGE

We offer durability of the product, with tear and flame resistant material M1 and more on cotton canvas or fiberglass paper

EASY PROCESS

1. Customer submits plans
2. Colors, textures and materials defined jointly
3. Samples validated by customers
4. Production in the workshop
5. Safe packaging and transportation
6. Easy on site installation

INSTALLATION

Save time, energy and be “maxi creative”... When working with our products, expect few people working site.

ALL IS IN THE DETAIL

We are the only ones to propose this unique technique. Wallpapers and wall coverings usually lack depth... By working with materials such as lime, gilding, concrete and cement, we bring life into our creations!
