Spring-Summer

Collection 2022

Dear Customer,

New season, new chances, at least that is what we sincerely wish for you and your businesses.

For us, we have done everything in our power to make this new season a successful one. Based on the worldwide supply chain situation we have decided to invest in stock, therefore we have built our collection with items that are already available.

In the middle of this difficult period we have chosen to make delivery reliability our priority.

What's new:

- We welcome back some of our former best-sellers into all our categories.
- Sustainability, the complete terrariums collection is made with recycled glass.
- We launch our new brand > **Pyromane**.

About Pyromane:

Candles and candle holders are becoming more and more popular. It seems like people need some light in their lives. 😊

We have decided to jump into this market with the launch of our Pyromane collection. This collection is only the beginning, we have big plans for the autumn/winter collection already.

About the name ... since the name Plantophile means “a lover of plants” we like the idea that Pyromane means “a lover of setting things on fire”. It couldn't be more appropriate.

With the catchy logo that fits perfectly in today's trend scene, we hope to build a strong and popular brand.

We love to be at your service this upcoming season with both our brands.

With love,

The Plantophile team

Marimo is a live form of green algae that only occurs in a few places in Iceland, Japan and Canada. To find this natural phenomenon you have to dive to the bottom of deep lakes. The flow of water keeps the ball perfectly round, it grows about 5 mm each year and can live to be hundred years old.

According to the legend, Marimo balls resulted when two forbidden lovers fell into the water, their hearts transformed into Marimo balls. Since then, this wonder of nature has symbolised good fortune.

Good fortune in your hands!

Plantophile your partner in E-commerce

During last years we have gained more experience in E-commerce and drop-shipment. We would like to build partnerships with online sellers and extend our services in this area.

Let us know what your wishes are and we try to find tailormade solutions to help you grow online.
