

## GIVE OUTDOOR LIVING ADDED GLOW

Since time immemorial, the fireside has been the homely setting for cooking, light and heat. With the FireCylinder fire pit, Eva Solo lights up get-togethers with family and friends, for longer outdoor living in the garden or yard. The sculptural, cylindrical fire pit warms heart and soul and sets the scene for making the most of those long summer nights. Eva Solo has also developed a grill grid for the FireCylinder, which transforms the fire pit into a barbecue with space for both meat and vegetables.

### FireCylinder fire pit

Integrated shielding protects the flames against gusting wind. The all-weather FireCylinder is designed for year-round outdoor use. Over time, natural weathering will give the fire pit a distinctive patina that will only add to its appeal. While the rust does not transfer like other rust, small stains or runoff may occur. A grill grid can be purchased as an optional extra to convert the fire pit into a barbecue. Stainless steel heats to the right high temperature for those perfect grill marks.
