

GIVE OUTDOOR LIVING A WHOLE NEW ANGLE

The rustic FireCube fire pit from Eva Solo gives outdoor living that added glow for family get-togethers around the dancing flames. The fire pit can be tilted and angled in two ways, so it not only shields the fire but creates a new look for your garden or patio.

FireCube fire pit

The all-weather FireCube is designed for year-round outdoor use. Over time, natural weathering will give the fire pit a distinctive patina that will only add to its appeal. While the rust does not transfer like other rust, small stains or runoff may occur. As an accessory for the fire pit, Eva Solo has launched a specially designed fire grid for spicing up the fireside ambience with tasty meals cooked over an open fire or charcoal. Right the base of the FireCube to stand level in its horizontal position, place the grid on top of the cube and you're BBQ-ready! The stainless steel grill grid heats to the right high temperature for those perfect grill marks. The grid also provides a large stable grilling surface for larger items on your menu like whole chickens, fish or veggies.
