

## Press Release

### New capsule collection from the Greek brand Kores

The Greek islands. The blue and the white. The colors of the Aegean Sea, the sandy, golden coasts, the mirroring of the sun on the crystal waters, the shades of the sunset in the summer. Images we feel and always remind us of our happiest and most carefree memories. This is the moodboard of the new capsule collection designed by the Greek brand Kores. Scarves that can be transformed on every body with matching handbags and toiletry bags, statement hats for iconic summer looks and a limited summer wear collection for women who love the breeze of the Mediterranean and the aesthetics of the Southern cultures. Each item is unique. Each item is handmade. Created with sustainable and traditional techniques using cotton fabrics that are ethically produced. Discover the collection in selected stores and online at [www.jewelry-kores.com](http://www.jewelry-kores.com) and in person at the exhibition Parousies in Athens from 12-16 January, in Madrid at the exhibition Bijutex 3-6 February and in Paris at the exhibition Objet 24-28 March.
