J.J. Textile is an independent business based in Derbyshire, UK. We are known for our cosy blankets, cushion covers and throws all in our original designs. All products are made from natural fibres including wool and cotton. We have proudly been supplying independent businesses as well as larger retailers in the UK and worldwide for the past ten years. We also created custom blankets and soft accessories which have keeping customers cosy in hotels, cafes and wine bar terraces.

We are passionate about environmentally and ethically sourced production. Our soft furnishings are made from wool created on the hills and pastures of the beautiful scenic Norwegian countryside. Wool is one of the most sustainable fibres; it is renewable, recyclable and biodegradable.

Jurate, JJ Textile's director and designer, finds inspiration for the unique, original designs from nature, the ever-changing seasons and her customers ideals. She has a longstanding relationship with trusted manufacturers in her native Lithuania, who carefully and skilfully bring her designs to life in either pure wool or blends of wool and cotton. Each product is carefully crafted to be cherished, shared and to last.

Come and join our philosophy of 'happy living in the woollen world'!
