In the past few years, we have worked hard to add the best license range to our giftware catalogue. The Puckator design team have worked closely with Volkswagen, FIAT 500, Simon's Cat, Pusheen, to name just a few of them. This year we added two extraordinary ranges to our license categories that will be a hit for gamers worldwide. Minecraft and Pac-man are two icons that can appeal to everyone. We have also expanded our Pusheen range, adding products that feature the new Hello Kitty & Pusheen design and some new Asterix products.
