BULBEE, A SMART AND INGENUOUS LAMP

PARANOCTA, designer of innovative wireless lighting, presents BULBEE, its new wireless design lamp. Its name evokes the contraction of BULB and BEE, which is known for not holding still!

MORE THAN A LAMP, A REAL OUTDOOR WIRELESS LIGHT BULB

The illuminating heart of the floor lamp PARANOCTA has a new style: a new brass-coloured heatsink with very decorative patterns brings chic and design to it. With its removable diffuser, an opaline polycarbonate dome, the BULBEE can now be used on its own!

An integrated screw thread makes it very and compatible with a wide range of accessories, such as the new leather-effect suspension strap or a camera stand.

Really waterproof, it can be used on a table, on a low wall, at the edge of the pool or hanging from a branch or a pergola... Ultra-nomadic and compact, it fits easily into a bag and can be taken everywhere!

AN INSPIRING LAMP FOR CREATIVE PEOPLE

Thanks to its format, it fits into any in any XXL candle jar, wicker basket, customizable metal cage... The creative people will not lack inspiration to compose their own lighting, both indoors and outdoors. **Ideal for to create a festive atmosphere, to enhance a lounge area, a swimming pool deck a pool deck or a staircase, BULBEE opens up the field of possibilities in terms of outdoor lighting.**

A CONCENTRATE OF TECHNOLOGY, EFFICIENT AND SUSTAINABLE

Like wireless devices such as the smartphone or the mobile speaker, **the BULBEE lamp can be recharged from the mains.** Its integrated 190g Lithium-Ion battery high performance offers a runtime of up to 8.5 hours at full power (400 lm): a record in the in the market for wireless outdoor lighting market.

The BULBEE LED has been selected for its efficiency and longevity, which can be measured in thousands of hours of lighting. From the world's leading American brand, CREE, world leader, it is infallible. The transparent window protects it from shocks and falls. Because the BULBEE lamp really lights up, its brass-coloured heatsink is not only there to look stylish, it also serves to refresh its LED.

GOOD TO KNOW:

DESIGN:

Xavier HOUY (Paris)

THE BULBEE LAMP MOBILE APPLICATION ALLOWS YOU TO ADJUST THE INTENSITY OF LIGHT TO CREATE DIFFERENT MOODS AND EVEN TO CONTROL SEVERAL LAMPS AT THE SAME TIME.

ABOUT PARANOCTA

In the early 2000s, Hilda and Stéphane Ponge, partners in both their professional and personal lives, had the bright idea of PARANOCTA. 15 years of experience in the tourism and landscaping led them to give life to these wireless lights dedicated to conviviality, to living together. In addition to their lighting function, it is for their ability to bring people together, to offer the ideal light for dining anywhere that they are developing these lights with a sociable ambition.
