

Maison&Objet 2022: EVER Life Design presents the latest news

**EVER Life Design attends the Parisian event Maison Objet next 24 – 28 March 2022, the renowned event dedicated to professionals in terms of decoration, design, accessories, fabrics and much more.**

For this occasion EVER Life Design presents the evolution of some of its best seller collections, integrating and improving technical solutions to make the products more functional: in Parigi there will be Lissom Slim, the collection of multifunctional shelves which is an evolution of the famous Lissom collection designed for bathrooms able to combine functionality and design. There will be also DOT Basket, extension of the range of the iconic collection DOT: suitable for different uses and spaces. Compact but spacious, DOT Basket can be fixed to the wall to store different objects ( like toys, spice jars or bottles for bathroom ) . it is realized with a technical waterproof material that allows the product to be installed also in the shower. EVER Life Design will exhibit also ELEGANCE, the collection designed for the bathroom that presents elegance lines but at the same time very practical and solid: ELEGANCE offers a complete range of accessories for bathroom suitable also for contract projects. Each element comes from the need to combine design and functionality, even in case of creations that require a compliance with a specific regulation as per a specific design of bathrooms for people with mobility difficulties. The collection has therefore multiple uses: in addition to home spaces, it is suitable for hospitality, wellness and public spaces in general.

The exhibition is completed by TAPE shower – a shower band with suction cups perfect to be installed in the shower without the need to drill the tiles. TAPE SHOWER is available in two different models with baskets made of waterproof material, perfect for the tumblers or the sponges of your shower, and the famous ROLL, designed for a better comfort inside the shower corner, but able to live in every room or space, even outdoor. Roll is covered with a waterproof fabric that allows it to be used in different contexts, and it is perfect even under the shower. It is very light ( less than 1 kg ) and can be easily moved everywhere thanks to the practical handle.

EVER Life Design confirms itself as an innovative brand that represents the excellence of Made in Italy through the quality of its multifunctional offer, thanks to the project research and the values of design that are the result of a precise corporate expertise, with attention to people and their different needs during their life and in different contexts.
