

Apartamento

Apartamento breaks the traditional magazine boundaries that separate home design from homeowner, and offers readers a glimpse inside the lived-in, often cluttered homes of celebrities and industry legends.

Apartamento is widely recognised as today's most influential, inspiring, and honest interiors magazine. International, well designed, simply written, and tastefully curated since 2008, it is an indispensable resource for individuals who are passionate about the way they live. The publication is published biannually from its headquarters in Barcelona. It also has offices in New York, Milan and Berlin.
