THE CONSTELLATION SUSPENSION

This mesmerizing design brings you into the daydreaming state of mind, revealing the story about visionary luxury and fancy fantasy implemented from the classy sketch to the sophisticated chandelier. Impressive new lighting creation is the marriage of innovations, design creativity, and brass handcrafting perfection. ***Imagine the constellation of stars in the open space, freedom, and transparency***. The Constellation suspension is composed of **rotating stars figures** adorned with falling raindrops spinning around the lighting design in the centre that shimmer in harmony through the **delicate crystals.**

In addition to the magnificent crystal drops, the design has sharp crystals that contrast with the raindrops and allude to meteorite shape, as well as convey the impression of **ice shards.** This luxurious modern-day lighting piece is meticulously designed and handcrafted with attention to the smallest details to become liveable opulence and bring extravaganza to the most exquisite living spaces: from the hotel lobby to the spacious living rooms or double floor staircases.

This piece is very versatile and can be **bespoke in any dimension, shape, or radius**. The grand chandelier manifests the concept of splendour and picturesque beauty that evoke a different look composed due to its complex blend of compounds like different shapes and sizes.

This statement piece is ideal for interior design projects that aim to provide a strong impression. The signature mix of high-end materials catches the attention of the most tired interior aesthetes and invites the guests to contemplate the installation while crossing this **luxury lighting fixture**. The Constellation handmade chandelier is the perfect fit for contemporary interior designs that combine strong and sumptuous pieces in charismatic décor styles.
