THE RAINFOREST SUSPENSION

The Rainforest Collection arose from the timeless lighting celebration of nature silhouettes, its elements, and movements. Immerse yourself into the magnificent atmosphere of the sparkling rainforest where the art of brass craftsmanship becomes luxury lighting design. The ultimate fusion between the artistic design, authenticity of traditional Portuguese metal-work techniques, and creative craftsmanship.

The Rainforest elegant chandelier is unparalleled in the refinement and grace it represents. The gold-plated brass coupled with clear crystal glass - applied by hand - brings a delicate charisma that resembles nature in full bloom. A broad-leaved masterpiece of modern lighting design along with falling raindrops and butterflies takes you to remote spaces and the open sky. A dreamy lighting fixture creates an exceptional ambiance to the classy interiors.

A luxury custom-designed collection made to be featured in the most sophisticated projects organically. The sizes and distribution of the elements can be naturally customizable. This handmade suspension lamp is perfect for spacious living rooms, dining rooms, or hallways with high ceilings, fitting in a wide variety of decors. The exquisite light dispersion of this gracious lamp will make it the central piece for all luxury houses and help achieve the desired timeless chic. THE LOTUS SUSPENSION

THE LOTUS SUSPENSION

Anyone who has ever observed a lotus flower emerging can't fail to set its beauty and delicacy, always looking clean and pure against the background it is born in. These characteristics assume different meanings between cultures though they always seem to share the same impression – magnificence. Lotus Suspension aims to represent this simplicity and splendour as its design and form are almost identical to the lotus flower shape, incorporating its luxurious feel. The use of noble materials and valuable traditional manufacturing techniques makes this chandelier unique, as the 24k gold decorated with delicate glass increases the visual complexity. The glasses remind us of the calm falling petals from the flower that reflect its simplicity as well as shades of elegance and beauty. This collection aims to be the highlight of all interiors as it contains memorable statement pieces, capable of creating a unique and exclusive atmosphere where light figures spread through the various glass elements.

THE SEDERE BAR CHAIR

The Sedere's Collection was inspired by the Italian way of cementing the interior design industry: with a glamour characteristic of a country forged in sophistication, authenticity, and unprecedented sense of style. The luxurious, timeless glance of this handmade bar chair, provided by a refined combination of materials such as brass and leather that frames the mesmerizing brown upholstery, Sedere's splendid design aims to be more than what meets the eye, having a sophisticated high-end look. Detailing the chair's back is Castro Lighting's logo stitched magnificently. The Sedere bar chair can be used in a classic style with straight lines or even contemporary where subtlety and simplicity are key.

THE CONSTELLATION SUSPENSION

This mesmerizing design brings you into the daydreaming state of mind, revealing the story about visionary luxury and fancy fantasy implemented from the classy sketch to the sophisticated chandelier. Imagine the constellation of stars in the night sky, freedom, and transparency. The Constellation suspension is composed of rotating stars figures adorned with falling raindrops spinning around the lighting design in the centre that shimmer in harmony through the delicate crystals. In addition to the magnificent crystal drops, the design has sharp crystals that contrast with the raindrops and allude to meteorite shape, as well as convey the impression of ice shards. This luxurious modern-day lighting piece is meticulously designed and handcrafted with attention to the smallest details to become liveable opulence and bring extravaganza to the most exquisite living spaces: from the hotel lobby to the spacious living rooms or double floor staircases. This piece is very versatile and can be bespoke in any dimension, shape, or radius.
