

FURNITURE ARTISANS

Our pieces are designed and artisanally made in Spain. Our objects are made by hand so as to take care of every last detail and make each object a unique and unrepeatable piece with carefully selected materials.

The collection contains our own designs and others of contemporary designers. In 2015, **LACAJA** acquired the Spanish brands **Casa & Jardín** and **C&J2**. Since then, we have reworked a selection of the most iconic furniture pieces of the two brands which have inspired us to design new pieces.
