

RESPONSIBLE AND SUSTAINABLE DEVELOPMENT

LACAJA is responsible in caring for the environment and the planet.

We use artisanal manufacturing processes and natural treatments for the materials and we produce in workshops located in the same region in order to minimise our carbon footprint.

The designs of **LACAJA** are simple and removed from fashion trends. This is because we wish to produce timeless pieces in order to adapt to the evolution of lifestyles. Long-lasting objects that transmit and heal due to the quality and nature of the materials used.
