Bisaccia sarda and Nordic design

We are pleased to present our **Nuno** and **Bisaccia** textile collections and to meet **Elena Kihlman**.

Our philosophy is evident in these collections, which combine traditional craftsmanship with contemporary design.

Characteristic of the **Nuno** collection are the hand-made patterns with silk and wool fibers on a linen surface.

The strong point of this line is the hand-woven **Bisaccia** cotton, the use of which has an ancient origin and is closely linked to the traditions of the Sardinian past.

The design and production are carried out in **Rome, Italy**, and we believe this can guarantee their quality.

We hope you enjoy our creations as much as we do and we can't wait to hear from you.
