### **Solid milled beech tree structure: an eco-friendly family heirloom.**

Long before there were words such as “sustainable” or “green,” Teckell was crafting objects with Mother Nature in mind – that is, gorgeous, 100% Italian objects made with fine materials that are cherished and handed down. The 90° Minuto foosball tables feature solid woods and crystal, a precious yet robust material.

## **Shaping comfortable yet modern interiors.**

The wood and chrome details that define Teckell 90° Minuto are also found in elegant, timeless interiors. The table with its lean lines emanates a minimal feel, blending in wonderfully in modern, harmonious environments, while staying true to its 100% Italian roots, which guarantee quality. Also, an extra special touch is conveyed by its sophisticated soft-feel skin and color shades.

## **Form and function unite for a great design.**

Design is in Teckell's blood. Our first Calcio Balilla collection was created in a family-run carpentry workshop. The same artisanal and detail-oriented approach lives on today in each of our collections. Our designers are also constantly searching for ways in which to modernize Teckell's tables while maintaining that delicate balance of craftsmanship, function and a pure style.

## **Engineering timeless masterpieces.**

Teckell has found the perfect balance between technology and craftsmanship. Master artisans are behind the creation of every single foosball table. Just as past generations, they carve the wood structure and cut the extra clear glass but are now armed with the latest tools: CNC machines ensure unrivaled precision and significantly reduced waste. Computers help craft these works of art but don't make them run.

## **Lifestyle: shaped for comfortable modern interiors.**

The details that define Teckell 90° Minuto are also found in hi-tech, minimal interiors. The table with its lean lines emanates a futuristic feel, blending in wonderfully in design, unique environments, while staying true to its 100% Italian roots, which guarantee quality and that extra special touch.

An exclusive model, the result of a burning desire to experiment and put to the test the Italian tradition of manufacturing excellence.
