

Milano Bedding at the Salone del Mobile confirms its peculiarities: comfort, elegance and functionality with the new Jarreau sofa bed

Jarreau is the new sofa bed presented by Milano Bedding at the Salone del Mobile.Milano 2022, designed to offer **maximum seating and sleeping comfort with a timeless design**.

A model with an **essential design** available in linear sofa bed and with chaise longue, fixed armchair and armchair bed.

Its lines are highlighted by a thin **contrasting accent border**, a detail that allows further customization.

The large and **welcoming cushions** define the shapes and ensure excellent comfort.

In addition, for a correct and comfortable posture, the backrest of Jarreau can be provided with **headrests**, equipped with a practical chrome support, which can be placed as desired.

Jarreau, thanks to the Lampolet mechanism, **transforms, with a single movement, into a comfortable double bed** (200cm mattress) by simply rotating the backrest and without removing any cushion.

Milano Bedding has always offered comfortable sofa beds, appreciated for their 360° quality: from the craftsmanship to the materials, to the opening / closing system, up to the attention to every detail such as, for example, the mechanism cover, which is made with the same fabric as the sofa.

Every detail, every finish is therefore studied and meticulously cared for, for a sofa bed that is also perfect for daily use.
