

Wewood releases Rigoles coffee and side tables

PORTO, JUNE 2022 – Wewood launches a new collection of coffee and side tables, designed by the French designer Pierre Dubourg.

Inspired by the architecture of the Brutalist fountains and stone gullies for water distribution, Rigoles is a collection of tables made of solid oak with a brass detail on the base.

Available in three different dimensions, it can be used as a single side or coffee table or together creating different combinations with the various dimensions and finishings available.

This is the second collection of tables designed by Pierre Dubourg for Wewood, after Corner tables in 2019.
