The brand.

WHO WE ARE ?

Bangle up is a modern French jewellery brand based in Paris, with a distinctive and unique signature look: lacquered bracelets lined with fine gold and decorated with pop colors and custom graphic prints.

Our collections are inspired by our founders' travels around the world desire to pay tribute to women everywhere: our designs always try to link a free spirited, nomadic way of life with classic Parisian chic.

Our bracelets can be worn individually to complete your look with a subtle splash of color or accumulated around your wrists for a maxi effect: in any case, they can be mixed and matched to create your own personal look.

THE ART OF TRADITIONAL WORKMANSHIP

Each bangle up jewellery is fabricated in coloured lacquer and soaked in a gold bath by our partners in Asia. We select them with lots of requirements so that they share our savoir-faire, our values and our ethic.

All our jewels follow the same workmanship process during 5 hours before coming back to the Parisian workshop. Coloured or lacquered, they are plated and varnished in order to maintain their brightness for years. The whole team, like the bangle lovers, constantly wait for these little marvels – yet so affordable – with lots of eagerness!

Bangle up, a «Happy Family»

After working for 15 years for internationally renowned French lingerie brand, Princesse tam tam, Danielle was dreaming of launching her own entrepreneurial and creative project.

Thus, she decided to create Bangle up in 2014 : a creative and instantly recognizable brand with a strong DNA. From ultra-feminine and chic jewellery, to bracelets with a sleek design, subtle colours and exclusive prints. A mix of audacity and elegance.

Every season, bangle up renews its collections based on diverse inspirations, travels, architecture, design and fashion: bangles of every color and minimalist shapes with a modern twist.

In a nutshell, we like to think of bangle up as more than a brand, but as a “happy family business” as Danielle likes to put it.

Located in the heart of Paris, in a typically Parisian cobbled alley a stone’s throw from the Canal Saint Martin, bangle up’s “atelier” is a breath of fresh air in the urban jungle, just like our jewels are little lucky charms.

- Les insouciantes -

When winter is coming, it's time to open photo albums and dive in a reality that is close to us.

The pages turn and the memories come back, those of a time of pop colors and extravagant prints: the seventies!

The collection reminds us this parenthesis where fashion and femininity was one. It is the shapes, the audacity and the avant-garde that recall the electric softness of the 70s.

Beyond the icons that have marked history, it is the imprint of a decade that comes gently to rest on this new jewelry collection.

This winter, we dare like the glorious times, we move forward and we take responsibility.
