

Press release

The Magic of the Sea, the Intelligence of the Earth and the Spirit of the Hand

Sophie Luline draws inspiration from the sea. Quietness flows in, ideas blossom and her hands in motion then model the clay. From the latter emerge poetic creatures

We have all had an eery feeling at some point while gazing at the sea. A peculiar thrill -quietness mingled with some mild amazement.

We all have a special relationship to the sea, probably because it is the origin of life.

Sophie Luline's exploration of the sea is quite intimate and profound. So she feels the need to express it and *shape* it. Her delicate and humorous creations delightfully help us discover her marine artistic world

Present at the « Maison et Objet" fair from September 8 to 12, 2022 and January 2023

Creations on demand

Do you have any ideas for interior design in mind? Would you like to develop your own concept? Get in touch with Sophie Luline directly and tell her about your world. She will offer you personalised creations
