

NEW MILITANTS RANGE TEAS & INFUSIONS

- FOR THE EARTH AND HUMANS -

“Les Militants” teas and infusions: a range that makes sense!

Created in 2013, the “Les Militants” range* of teas and infusions enables Les Jardins de Gaïa to support numerous projects in favour of biodiversity and those who promote it. This approach, which reconciles ecology and economy, echoes the values we defend and strengthens the ties we have with the partner associations we feel close to.

For the 2022 range, we have chosen to support two new associations: **Sea Shepherd**, an NGO founded in 1977 by Captain Paul Watson, which works courageously to protect marine wildlife, and the **Project for the Conservation of Great Apes (PCGS)**, created in 2006 by primatologist Sabrina Krief and photographer Jean-Michel Krief, with the aim of protecting wild chimpanzees and their habitat, the tropical forests.

Awarded the Social Commitment Trophy at the 2017 CSR Awards. ** Total paid to 10 partner associations between 2014 and 2021 to support their actions.

€175,000 donated

A TEA FOR THE OCEAN ORGANIC FLAVOURED WU LONG TEA

Lemon flavour - Mint

To support the Sea Shepherd association

On its base of "blue-green" tea, the colour of the ocean, this original recipe dedicated to lovers of these fascinating life basins on which we depend reveals the richness of its flavours. After an attack with lemony notes offered by ginger, the association of peppermint and rosemary, the plant of the sailors, blows a wind of freshness on this particularly deep and aromatic wu long.

Ingredients: wu long tea*, ginger pieces*, rosemary*, peppermint* 3%, lemon essential oil* 2%, cornflower petals*.
*From organic farming.

CHIMPS'TEA ORGANIC FLAVOURED BLACK TEA

Honey flavour - Fig - Thyme

To support the PCGS association
(Great Ape Conservation Project)

This recipe, dedicated to these clever and endearing "cousins" with whom we share so much, is an ode to the wilderness from which we still have so much to learn. Based on an excellent Ugandan black tea, flavours of thyme and honey pleasantly surprise the palate before giving way to delicious notes of fig, which chimpanzees love, on a woody background that structures the whole.

Ingredients: black tea, honeybush*, fig pieces* (19%), natural (fig 5%, honey* 4%) flavours, thyme* 1%, marigold petals*. *From organic farming.*

UGANDA DIRECTION SINGLE ESTATE ORGANIC GREEN TEA

Uganda
To support the PCGS association
(Great Ape Conservation Project)

A superb handcrafted green tea harvested from tea bushes grown in agroforestry near the Kibale National Park in Uganda. The shade offered by the surrounding trees is particularly favourable to the development of the bright, sweet and fruity flavours of green teas. The result is a dense, very velvety liquor with delicious notes of brown sugar, yellow fruit and hot stone...

Ingredient: green tea. *From organic farming.*
