

AUTUMN / WINTER 2022

HANDMADE FOR YOU

Handed By is the leading brand in handmade woven baskets, bags and home accessories and we are driven by the notion of creating a better world.

Interested in how we do that? Read:

INSPIRED for you, HANDMADE for you, RECYCLED for you, FAIR MADE for you and DESIGNED for you.

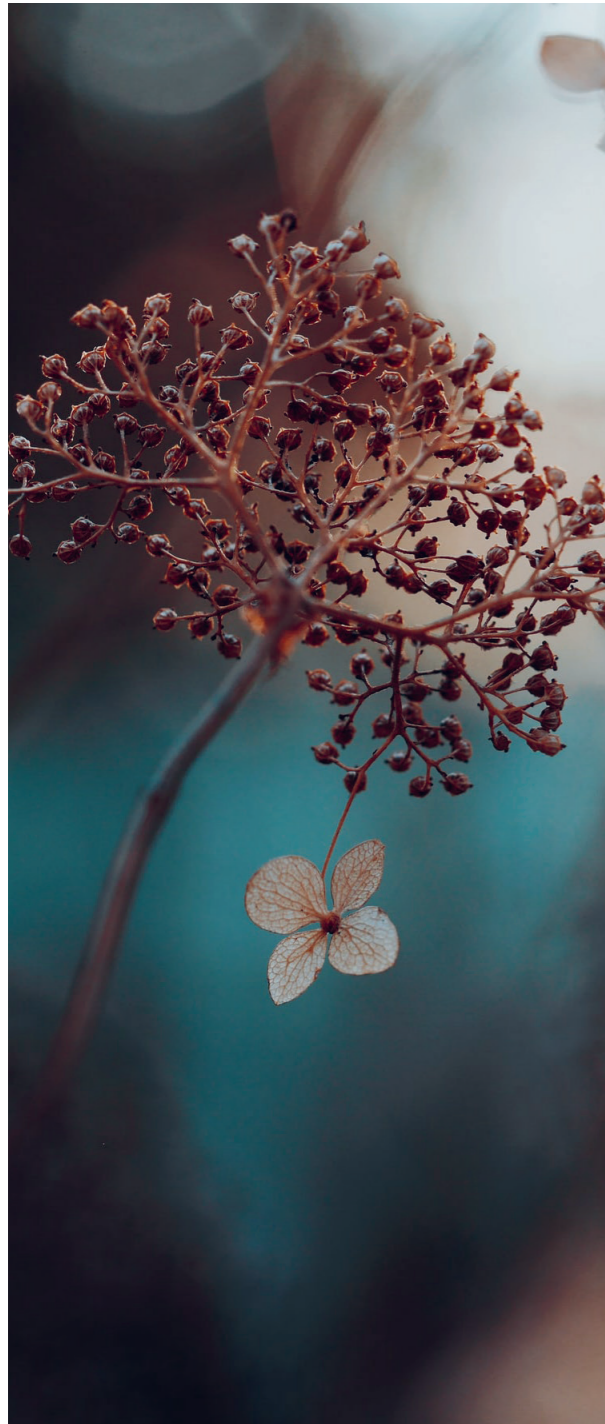

All our products are handmade by farmers in Vietnam and China. The social impact we create, is to support more than 300 families and help them improve their lives.

No mass production in big factories, but small, scale projects with long-term personal partnerships. We work intensively with honest and personal partners that often have small, scaled businesses, and believe in our vision; to conquer the world with traditionally produced baskets, bags and other items, made from recycled materials as much as possible. Everything we design is manufactured in an ethical and responsible way, in which 100% free of child labour is guaranteed.

We were able to visit our weavers in the Far East again last May, after a long COVID period. We met them to teach them to make new products, to help them to improve the quality of the products and to listen to them when it concerns their daily lives. It was a pleasure to be on the spot, next to our craftsmen. By having contact with our people on site, we feel a great social responsibility towards our weavers and their families. We express the fact that we are very proud of their weaving skills of superior quality. In return, the weavers are proud to work for the Handed By brand. Working for Handed By is for our craftsmen like 'HAPPINESS IN OUR HANDS'!

HANDMADE

INSPIRED FOR YOU

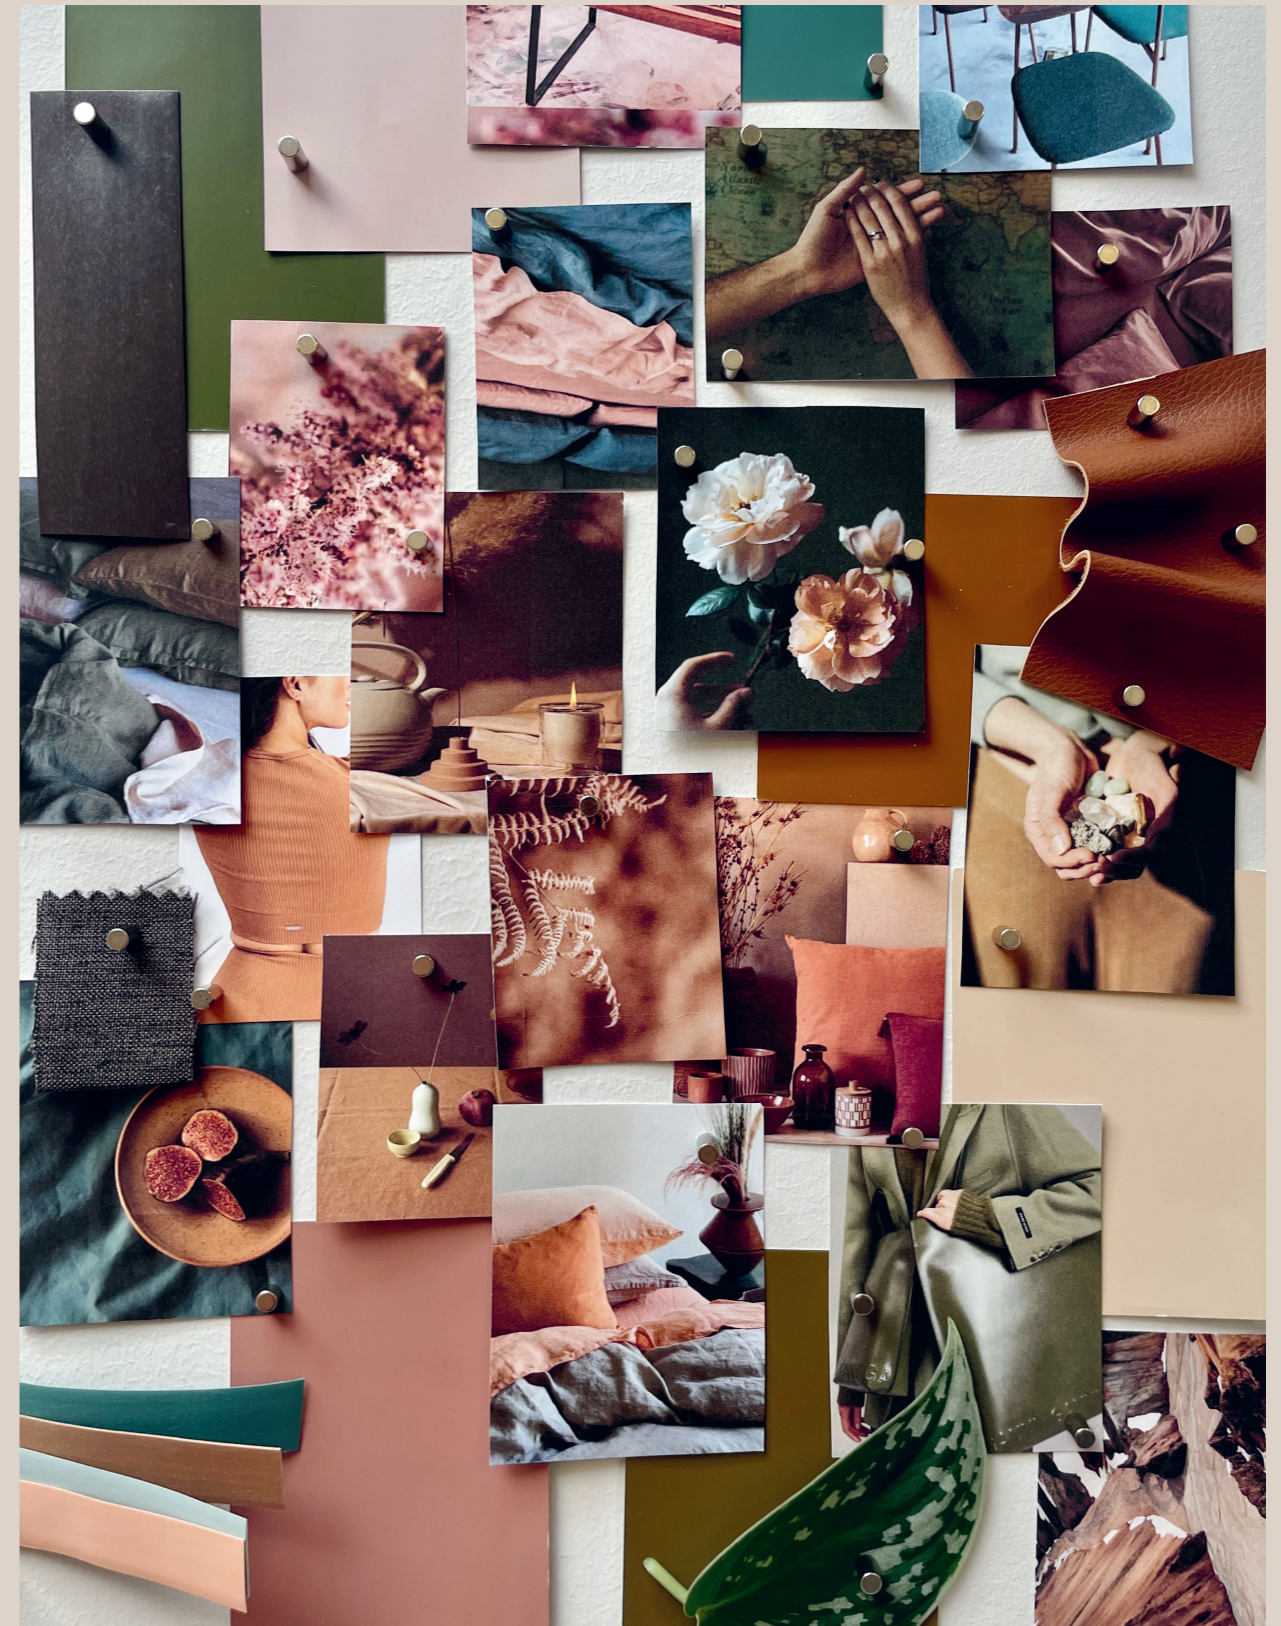

Over the past two years we have been more at home than ever before and that has made us look differently at how we live and where we live. We must maintain a balance between people and the earth. Collaborate more with a positive attitude and set common goals, this is how we want to rebuild our community.

For Handed By it is about being creative with the materials that are already available for re-use. The combination of the re-use of plastic material and the unique handmade product fits perfectly within the Handed By Autumn collection 2022.

The colours of this new season are based on a soft colour pallet. Outdoor life is combined with vintage coloured tones. 'Evening-glow' colours like soft orange-pink are in perfect harmony with the different vintage brown tones, green and ecru. By using different kinds of wood in combination with our weave technique we bring this season warmth and simplicity in our homes.

Be inspired by the Handed By Autumn Winter collection 2022 and reduce the environmental footprint of your closet!

DESIGNED FOR YOU

Handed By design is recognizable by the unique brand stamp in the form of a handprint.

You will find a button with our handprint on every Handed By product, showing that you have a unique, high-quality and trendy product in your hands. It all starts with a unique design, developed in our design studio in the Netherlands with recycled materials as the basis for each product.

Our collections are developed in our design studio. We are constantly looking for trends in lifestyle, home and the environment and talk to our customers about their needs. Our designers consider all ideas. In this way we arrive at designs that we critically evaluate in brainstorming sessions. Only the best ideas are developed into sketches and prototypes. The designs are recreated during production and subjected to various tests. Then production starts and the product is introduced.

RECYCLED FOR YOU

Join us on our journey and help us reduce plastic waste!

Handed By has an impact on the environment by giving plastic waste a second chance. By using recycled plastic, we slow down the process of depleting the earth's natural resources.

Recycling is the process of converting waste materials into new materials and objects. Waste that would otherwise be thrown away and end up in the environment with all the consequences that entails.

Handed By recycles industrial waste into strap material for our handmade bags and baskets. The plastic waste is used as basic granulate, the basic material for every product. All Handed By collections are made from recycled plastic.

The durable Handed By bags and baskets will last a lifetime. They are made of plastics that can be recycled again at the end of the user circle.

Join us on our journey and help us reduce plastic waste, so recycle by you! We can all contribute to this process by using recycled plastics in our daily lives. Help the environment and be creative yourself by finding new ways to reduce the use of plastic in general.

MEET OUR HANDCRAFTERS

Mrs. Tran loves handicrafts! That is why she chooses to weave the beautiful baskets and bags for Handed By. Sometimes a real challenge to make! She no longer works in the rice fields because of her health, so weaving baskets is her main job and thus she earns money for her household. Especially the fact that she is in a group with other weavers makes the work extra attractive to her. Mrs. Tran takes care of her son, who lives in her house.

Trần Thị Loan

Mrs. Tran craftswoman Handed By

Mr. Bu is a hard worker and is mainly responsible for attaching handles. He also helps with the logistical side of all the work for the weaving groups. His wife also works for Handed By in her spare time. She weaves bags for Handed By. They both love to make beautiful bags. They are grandmother and grandfather of 3 grandsons, who live in Shanghai. Unfortunately, he and his wife only see their grandchildren during the holidays. In the farming season they are busy in the fields. The rest of the time they weave bags to earn money to support themselves and buy gifts for their grandsons.

娄维秋

Mrs. Huong is one of about 300 craftswomen who weave baskets and bags for Handed By. She lives on a farm in northern Vietnam. During the day, Mrs. Huong works in the rice fields, and in the evenings, she weaves baskets and bags. Mrs. Huong has a son and daughter. Since the death of her husband, she has been caring for her children virtually on her own. The extra income she earns by weaving baskets and bags she spends on her children.

FAIR MADE FOR YOU

Just like you, Handed By thinks it is very important that there is an eye for the origin of products, an eye for the makers and for the chosen materials. We are talking about 'fair made' products; it changes the way trade works through better prices, decent working conditions and a fairer deal for our weavers in China and Vietnam and of course the use of a selected range of sustainable materials.

So every time a Handed By product is sold, you help making impact on human, product or material level. Our standards combine a range of economic, environmental and social criteria that are independently verified as part of BSCI certification. All weaving groups that work for Handed By are BSCI certified.

This means that social standards are safeguarded and monitored throughout the weaving process. These criteria reflect fairtrade's goals to promote sustainable production and decent livelihoods. When you buy fair made, you help ensure that these factors are not casually written off as 'external costs' or treated as costs that farmers and workers should bear alone.

In times of crisis, like we have experienced with the COVID, we have to be there for each other. So we have been there for our weavers. Making sure they always get enough work from us to never stop the weaving process and so their extra income does not stop.
